#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

#### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Underlying Contract ID
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Orangeburg (075)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

### Quality

#### GENERAL STATEMENTS:

Yield and quality of the crop are determined by the following factors:

Yield and quality of the crop are determined by the following factors: (1) the amount of the crop that is harvested; (2) the amount of the crop that is lost due to weather, disease, insects, or other factors; (3) the amount of the crop that is lost due to harvest practices; (4) the amount of the crop that is lost due to storage practices; (5) the amount of the crop that is lost due to other factors. The following factors are considered in determining production to count:

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

The QAF is determined by the following factors: (1) the amount of the crop that is harvested; (2) the amount of the crop that is lost due to weather, disease, insects, or other factors; (3) the amount of the crop that is lost due to harvest practices; (4) the amount of the crop that is lost due to storage practices; (5) the amount of the crop that is lost due to other factors.

The QAF is determined by the following factors: (1) the amount of the crop that is harvested; (2) the amount of the crop that is lost due to weather, disease, insects, or other factors; (3) the amount of the crop that is lost due to harvest practices; (4) the amount of the crop that is lost due to storage practices; (5) the amount of the crop that is lost due to other factors. B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

The QAF is determined by the following factors: (1) the amount of the crop that is harvested; (2) the amount of the crop that is lost due to weather, disease, insects, or other factors; (3) the amount of the crop that is lost due to harvest practices; (4) the amount of the crop that is lost due to storage practices; (5) the amount of the crop that is lost due to other factors.

The QAF is determined by the following factors: (1) the amount of the crop that is harvested; (2) the amount of the crop that is lost due to weather, disease, insects, or other factors; (3) the amount of the crop that is lost due to harvest practices; (4) the amount of the crop that is lost due to storage practices; (5) the amount of the crop that is lost due to other factors. A automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following factors:

- The DF is determined by the following factors: (1) the amount of the crop that is harvested; (2) the amount of the crop that is lost due to weather, disease, insects, or other factors; (3) the amount of the crop that is lost due to harvest practices; (4) the amount of the crop that is lost due to storage practices; (5) the amount of the crop that is lost due to other factors.
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- The DF is determined by the following factors: (1) the amount of the crop that is harvested; (2) the amount of the crop that is lost due to weather, disease, insects, or other factors; (3) the amount of the crop that is lost due to harvest practices; (4) the amount of the crop that is lost due to storage practices; (5) the amount of the crop that is lost due to other factors.

Year: 2026	Commodity: Barley (0091)	Use MMU or Oas   a a Q I D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Orangeburg (075)

1. OPTION TO DELAY CLAIM SETTLEMENT:

- a. If you sell the production to a disinterested third party during this delay, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- c. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- d. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- e. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- g. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

### 3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

and we allow an extension of time to harvest, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA

your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be

allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A

claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not
