General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

In accordance with the definition of "production reporting date" in the Basic Provisions, if you submit an application for insurance after the winter sales closing date or land is added after the production reporting date on which the spring type will be planted, the production reporting date will be the earlier of the acreage reporting date or 45 days after the spring sales closing date.

Practice

*4 Continuous Cropping . Any non-irrigated production practice that does not qualify as a summerfallow practice.

*5 Summerfallow :

year:

Special Provisions

2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: Winter [] or Spring []
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Park (067)

1. The acreage must not have been planted to a crop (excluding a cover crop, see exceptions below) during the preceding crop year; and
2. Any plant growth, including weeds, volunteer crops, existing perennial vegetation (including acreage emerging from USDA programs (such as CRP) and/or other federal, state, or local programs) must be controlled by mechanical or chemical means on or before June 15, and any later plant growth (e.g. weeds, volunteer crop) must be controlled by mechanical or chemical means.
3. Any additional plant re-growth must be terminated on or before June 15, and any later plant growth (e.g. weeds, volunteer crop) must be controlled by mechanical or chemical means.

(b) The following are exceptions to these requirements:

1. Failed Crop Exception: Acreage will qualify as summerfallow the current crop year, if a crop (excluding a cover crop) was planted the preceding crop year:
 - i. On acreage qualifying as summerfallow; and
 - ii. Was not harvested; and
 - iii. Failed and was terminated on or before June 15, and any later plant growth was controlled by mechanical or chemical means.
2. Cover Crop Exception: Acreage will qualify for the summerfallow practice in the current crop year if a cover crop was planted during the preceding crop year, provided the cover crop was:
 - i. Not hayed, grazed or otherwise harvested; and
 - ii. Terminated according to the NRCS Cover Crop Termination Guidelines and any later plant growth was controlled by mechanical or chemical means.

Date

- *6 Acreage insured under the winter coverage endorsement will have a final planting date of October 31. The winter coverage endorsement is not applicable to winter wheat acreage initially planted after October 31. Acreage insured under the winter coverage endorsement will have an acreage reporting date of November 15.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

2. If the level of a substance or condition is less than the maximum allowable, adjust the production in the following manner.
 - a. If the producer elects to place the production into commercial storage without going into on farm storage, the DF will be:
 - i. All insurable quality deficiencies, and that value divided by the local market price.
 - ii. C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2 above.
 - iii. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
 - iv. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, added to the applicable DFs included in sections A, or B2 above.
 - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, added to the applicable DFs included in sections A or B2 above.
 - b. If the production was fed or utilized in any other manner, was in on-farm storage and has been sold, or was sold to other than a disinterested third party:
 - i. Applicable DFs included in sections A or B2 above.
 - ii. To the applicable DFs included in sections A or B2 above.
 - iii. Applicable DFs included in sections A or B3 above.

DFs for Aflatoxin:

Aflatoxin Range	DF
0.1 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Underlying Contract: 0011
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Park (067)

Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.

- a. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- i. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- ii. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- b. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- i. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- ii. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- c. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.

1. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
 - a. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
 - b. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
