*3 FAC (Following Another Crop): A planted crop following:

1. A perennial hay crop that was harvested in the same calendar year; or
2. A crop (other than a cover crop) that has reached the headed or budded stage prior to termination, regardless of the percentage of plants that reached the headed or budded stage;

Termination means growth has ended. A crop that follows a cover crop that meets the criteria outlined in the Insurance Availability section of the Special Provisions is considered NFAC.

*4 NFAC (Not Following Another Crop): A planted crop not following:

1. A perennial hay crop that was harvested in the same calendar year; and

In addition to the provisions of section 34(a)(1) of the Basic Provisions, the earliest sales closing date for policyholders who have a base policy is the sales closing date of the base policy and not Margin Protection. All other terms of section 34(a)(1) remain in effect.

In lieu of section 2(h) of the Margin Protection plan provisions, insureds with MP may not elect SCO on the Base policy. If SCO is elected, the SCO election will be void.
