General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed
 - a. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be adjusted based on the following:
 - i. If the production is sold, fed, or utilized in any other manner, the claim will be adjusted based on the actual market value of the production at the time of sale, less the cost of production, and the claimant is responsible for the cost of the claimant's defense.
 - ii. If the production is not sold, fed, or utilized in any other manner, the claim will be adjusted based on the actual market value of the production at the time of the loss, less the cost of production, and the claimant is responsible for the cost of the claimant's defense.
 - b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:
 - i. If the production is sold, fed, or utilized in any other manner, the claim will be adjusted based on the actual market value of the production at the time of sale, less the cost of production, and the claimant is responsible for the cost of the claimant's defense.
 - ii. If the production is not sold, fed, or utilized in any other manner, the claim will be adjusted based on the actual market value of the production at the time of the loss, less the cost of production, and the claimant is responsible for the cost of the claimant's defense.
 - c. If the production is sold, fed, or utilized in any other manner, the claim will be adjusted based on the actual market value of the production at the time of sale, less the cost of production, and the claimant is responsible for the cost of the claimant's defense.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, the claim will be adjusted based on the actual market value of the production at the time of the loss, less the cost of production, and the claimant is responsible for the cost of the claimant's defense.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be adjusted based on the following:

1. If the production is sold, fed, or utilized in any other manner, the claim will be adjusted based on the actual market value of the production at the time of sale, less the cost of production, and the claimant is responsible for the cost of the claimant's defense.

* Local Market Price as defined in the applicable Basic, Crop, or these Provisions.

** %Disinterested third party- A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.

*** ~~Zero market value~~ occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.

**** %Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.

*****	%Insold + Grain that does not meet the definition of %sold.
