General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Date

*4 In lieu of section 6 (a)(2) of the Basic Provisions, you must submit your acreage report on or before the acreage reporting date contained in these Special Provisions.

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

Production Qualifying for Quality Adjustment: Production that is sold or otherwise disposed of within 60 days after the calendar date for the end of the insurance period (EOIP) and is not sold to a disinterested third party. Production that is sold to a disinterested third party within 60 days after the EOIP is also considered production qualifying for quality adjustment.

Net Production: Production qualifying for quality adjustment, less any production that is sold or otherwise disposed of within 60 days after the EOIP and is not sold to a disinterested third party.

Quality Adjustment: An adjustment to the net production of a crop that is sold or otherwise disposed of within 60 days after the EOIP and is not sold to a disinterested third party, based on the quality of the production.

Quality Adjustment Statement: A statement that the insured has elected to use the quality adjustment provisions of this policy, and that the insured understands the requirements for quality adjustment.

Quality Adjustment Factor: A factor that is used to determine the quality adjustment to the net production of a crop that is sold or otherwise disposed of within 60 days after the EOIP and is not sold to a disinterested third party.

Quality Adjustment Factor Determination: The quality adjustment factor for a crop that is sold or otherwise disposed of within 60 days after the EOIP and is not sold to a disinterested third party, shall be determined based on the quality of the production.

Quality Adjustment Factor Determination: The quality adjustment factor for a crop that is sold or otherwise disposed of within 60 days after the EOIP and is not sold to a disinterested third party, shall be determined based on the quality of the production.
