General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026 Commodity: Onions (0013) Use: ☒ WO ☐ E ☐ D
Date: 6/4/2025 Plan: APH (90) County: Cochise (003)

Type

*4 Includes storage type varieties contracted for dehydration and processing utilization only.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Price

Contract price:

You may use a contract price to determine your insurance guarantee when a contract price code of ~~yes~~ ☒ exists on the Prices tab in the actuarial documents for the crop, type, and practice.

Contract price authority (i.e., rules governing the use of contract prices and the method to determine a contract price) will be found in one of the following three places, listed in priority order:

1. Special Provisions, separate from this statement, which authorizes the use of the Contract Price Addendum (CPA);
2. Crop Provisions; or
3. CPA.

When the contract price code is ~~yes~~ ☒ on the Prices tab for the crop, type, and practice:

1. If the Crop Provisions or Special Provisions provide the contract price authority, your price will be determined in accordance with the Crop Provisions or Special Provisions. If neither the Crop Provisions or Special Provisions provide contract price authority, your price will be determined in accordance with the CPA; and
2. The Crop Provisions or Special Provisions may only provide contract price authority for specific types or practices. When this occurs, the CPA may be used to determine a contract price for other types or practices where contract price authority is not provided through the Crop Provisions or these Special Provisions.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Cipolline, pearl, or any variety of small diameter specialty onions are not insurable unless by written agreement.

Date: 6/4/2025

Plan: APH (90)

County: Cochise (003)

- *9 In accordance with Section 6 of the Onion Crop Provisions, a copy of all your processor contracts is required and must be provided by the acreage reporting date.
- Any acreage designated as unrated on the actuarial map will be insurable only by written agreement. Contact your crop insurance agent by the sales closing date to determine eligibility requirements.

Quality

The percent of damage referenced in section 14(d) of the Onion Crop Provisions will be 50 percent.

In lieu of the U.S. No. 1 grade standard referenced in the definition of damaged onion production within Section 1 of the Onion Crop Provisions, the following grade standard will apply: U.S. No. 2 Grade, under United States Standards for Grades of Onions for Processing.
