T/P 10	Spring 092	Organic(Transitional) Non-Irr. 714 *6
T/P 12	Spring 092	Organic(Transitional) Irr. 712

### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

In accordance with the definition of "production reporting date" in the Basic Provisions, if you submit an application for insurance after the winter sales closing date or land is added after the production reporting date on which the spring type will be planted, the production reporting date will be the earlier of the acreage reporting date or 45 days after the spring sales closing date.

### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

### Premium

\*6 Any acreage in this county with a high risk area designation on the actuarial map will have a rate adjusted in accordance with the high risk area and map area rates table.

### Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 10053 • 2026
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ford (057)

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

### Quality

#### GENERAL STATEMENTS:

When the insured elects to use the Quality Adjustment Statement, the insured must obtain a Quality Adjustment Statement (QAS) from the Farm Service Agency (FSA) within 60 days of the end of the insurance period.

The QAS is a statement that the insured has obtained from the FSA, which is used to adjust the production to count for the purpose of determining the indemnity. The QAS is obtained from the FSA by completing the QAS form and submitting it to the FSA. The QAS form is available on the FSA website. The QAS form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The QAS form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The QAS form must be completed and submitted to the FSA within 60 days of the end of the insurance period.

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

The QAF is a factor that is used to adjust the production to count for the purpose of determining the indemnity. The QAF is obtained from the FSA by completing the QAF form and submitting it to the FSA. The QAF form is available on the FSA website. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period.

The QAF is a factor that is used to adjust the production to count for the purpose of determining the indemnity. The QAF is obtained from the FSA by completing the QAF form and submitting it to the FSA. The QAF form is available on the FSA website. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period.

The QAF is a factor that is used to adjust the production to count for the purpose of determining the indemnity. The QAF is obtained from the FSA by completing the QAF form and submitting it to the FSA. The QAF form is available on the FSA website. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period.

The QAF is a factor that is used to adjust the production to count for the purpose of determining the indemnity. The QAF is obtained from the FSA by completing the QAF form and submitting it to the FSA. The QAF form is available on the FSA website. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The QAF form must be completed and submitted to the FSA within 60 days of the end of the insurance period.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the applicable Crop Provisions. The DF is a factor that is used to adjust the production to count for the purpose of determining the indemnity. The DF is obtained from the FSA by completing the DF form and submitting it to the FSA. The DF form is available on the FSA website. The DF form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The DF form must be completed and submitted to the FSA within 60 days of the end of the insurance period. The DF form must be completed and submitted to the FSA within 60 days of the end of the insurance period.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: HWS a • a ACD
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ford (057)

- [illegible]

1. OPTION TO DELAY CLAIM SETTLEMENT:

- a. If you sell the production to a disinterested third party during this delay, your claim will be settled using the applicable DFCs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- c. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- d. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- e. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- g. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

GĀŪÒÔNǝPÁFI ÇDÚOÁ/PÒÁOËUÔÁÜUXQǝPÙ

The statement does not supersede the provisions contained in section 14(e) in the Basic Provisions.

### 3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

QA. A sample is taken from the lot at harvest, and the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA

{ } are taken from the lot at harvest, and the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 100% • as APED
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ford (057)

your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A, ~~claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not~~

#### 4. DELAY IN MEASUREMENT OF FARM STORED PRODUCTION

quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for a claim for indemnity. ~~claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not~~

#### 5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

sold to other than a disinterested third party, fed, utilized in any other manner, or when a pre-established DF is applicable.

#### 6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value\*\*\*, such production will not be eligible for a claim for indemnity, except for production fed or used in any other manner.

#### 7. REDUCTION IN VALUE (RIV):

Moisture content; Damage due to uninsured causes; Drying; Handling; Processing; or

- a. Moisture content;
- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;
- e. Processing; or

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	U.S. No. 5 • 100
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ford (057)

- f. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
- g. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
- h. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
- i. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
- ii. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
- iii. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
- iv. The RIV and local market price\* are determined on the date such quality adjusted production is sold to a disinterested third party.

### SECTION A - DISCOUNT FACTOR CHARTS

U.S. No. 5 for Test Weight . 30.0 lbs. to 36.0 lbs.; U.S. Sample Grade . 10.0% and below):

#### GRADE DISCOUNT:

Barley will be discounted for grade as specified within the Quality Adjustment Tab located in the AD.

#### TEST WEIGHT DISCOUNT:

Discounts for low test weight are as follows (U.S. No. 5 for Test Weight . 30.0 lbs. to 36.0 lbs.; U.S. Sample Grade . 10.0% and below):

Test Weight Pounds	DF
36 and above	None
35.99-30	See Quality Adjustment Tab for Discount Factors
Below 30	See section B

#### DAMAGE DISCOUNT:

Discounts for low test weight are as follows (U.S. No. 5 for Test Weight . 30.0 lbs. to 36.0 lbs.; U.S. Sample Grade . 10.0% and below):

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: HWS a • a ACD
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ford (057)

- c. Unsold 60 days after the calendar date for the EOIP, fed, utilized in any other manner, or is sold to other than a disinterested third party, the DF will be the applicable DFs shown in the chart below added to the applicable DFs included in sections A or B3 above.

DFs for Vomitoxin:

Vomitoxin Range	DF
0.1 - 0.9 ppm	See Quality Adjustment Tab for Discount Factors
10.1 ppm & above	See C3 below

2. If you have a level less than the maximum allowable, adjust the production in the following manner.
- a. If you have a level less than the maximum allowable, adjust the production in the following manner:
- i. If you have a level less than the maximum allowable, adjust the production in the following manner:
- ii. If you have a level less than the maximum allowable, adjust the production in the following manner:
- b. If you have a level less than the maximum allowable, adjust the production in the following manner:
- i. If you have a level less than the maximum allowable, adjust the production in the following manner:
- ii. If you have a level less than the maximum allowable, adjust the production in the following manner:

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026  
Date: 6/17/2025

Commodity: Barley (0091)  
Plan: Yield Protection (01)  
Revenue Protection (02)  
Revenue Prot with Harvest Price Exclusion (03)

Use of Insurance: APED  
County: Ford (057)

- iii. If the applicable DFs included in sections A or B3 above.

DFs for Aflatoxin:

Aflatoxin Range	DF
0.1 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

A

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
  - a. If the production is sold, fed, utilized in any other manner, or destroyed, the claim will be:
    - i. Voted by the insured or a disinterested third party; or
    - ii. If the production is sold, fed, utilized in any other manner, or destroyed, the claim will be the lesser of the actual cash value of the production at the time of loss or the actual cash value of the production at the time of sale, fed, utilized in any other manner, or destroyed.
  - b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:
    - i. Voted by the insured or a disinterested third party; or
    - ii. .500 for production that was in on-farm storage and was later sold, was in on-farm storage and was transported to commercial storage and later sold, or the actual cash value of the production at the time of sale, fed, utilized in any other manner, or destroyed.
  - c. If the production is sold, fed, utilized in any other manner, or destroyed, the claim will be the lesser of the actual cash value of the production at the time of loss or the actual cash value of the production at the time of sale, fed, utilized in any other manner, or destroyed.
  - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, the claim will be the actual cash value of the production at the time of loss or the actual cash value of the production at the time of sale, fed, utilized in any other manner, or destroyed.

### SECTION D - ZERO MARKET VALUE PRODUCTION

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: HWSA • a • ACD
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ford (057)

[illegible]

- [illegible]

	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-A Grain that does not meet the definition of %sold.
