General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed
 - a. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be adjusted based on the following:
 - i. If the production is sold, fed, or utilized in any other manner, the claim will be adjusted based on the actual market value of the production at the time of sale, less the cost of production, and the claimant is responsible for the cost of the claimant's defense.
 - ii. If the production is not sold, fed, or utilized in any other manner, the claim will be adjusted based on the actual market value of the production at the time of the loss, less the cost of production, and the claimant is responsible for the cost of the claimant's defense.
 - b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:
 - i. If the production is sold, fed, or utilized in any other manner, the claim will be adjusted based on the actual market value of the production at the time of sale, less the cost of production, and the claimant is responsible for the cost of the claimant's defense.
