#### General

Optional unit division is NOT available by section or section equivalent. Optional unit division is available based on Farm Serial Number (FSN) and any other method specified in the Basic Provisions or Crop Provisions except section or section equivalent. To be eligible for the available methods of optional unit division, you must meet all applicable requirements.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

### Premium

Any acreage in this county with a high risk area designation on the actuarial map will have a rate adjusted in accordance with the high risk area and map area rates table.

### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

### Quality

#### GENERAL STATEMENTS:

For the purpose of this section, the term "qualifying production" means the production of a crop that is sold or otherwise disposed of for consumption as human food or feed, and is not sold or otherwise disposed of for use as seed, for use in the production of another crop, or for use in the production of a livestock or poultry product.

For the purpose of this section, the term "quality adjustment" means the adjustment of the production of a crop to reflect the quality of the production. The quality adjustment shall be determined by the producer, and shall be based on the quality of the production as determined by the producer. The quality adjustment shall be based on the quality of the production as determined by the producer, and shall be based on the quality of the production as determined by the producer.

For the purpose of this section, the term "net production" means the production of a crop after the quality adjustment has been applied. The net production shall be determined by the producer, and shall be based on the quality of the production as determined by the producer.

For the purpose of this section, the term "qualifying for quality adjustment" means the production of a crop that is sold or otherwise disposed of for consumption as human food or feed, and is not sold or otherwise disposed of for use as seed, for use in the production of another crop, or for use in the production of a livestock or poultry product.

For the purpose of this section, the term "extension of time to harvest" means the extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

For the purpose of this section, the term "sold" means the production of a crop that is sold or otherwise disposed of for consumption as human food or feed, and is not sold or otherwise disposed of for use as seed, for use in the production of another crop, or for use in the production of a livestock or poultry product.

For the purpose of this section, the term "unsold" means the production of a crop that is not sold or otherwise disposed of for consumption as human food or feed, and is not sold or otherwise disposed of for use as seed, for use in the production of another crop, or for use in the production of a livestock or poultry product.
