General

Optional unit division is NOT available by section or section equivalent. Optional unit division is available based on Farm Serial Number (FSN) and any other method specified in the Basic Provisions or Crop Provisions except section or section equivalent. To be eligible for the available methods of optional unit division, you must meet all applicable requirements.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use of AIP: Yes
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Hot Spring (059)

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

Production means the quantity of a crop determined by the following factors: (1) the quantity of the crop as determined by the official yield test; (2) the quantity of the crop as determined by the official moisture test; (3) the quantity of the crop as determined by the official foreign matter test; (4) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health; and (5) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health.

For the purpose of this section, the following definitions apply: (1) the quantity of the crop as determined by the official yield test; (2) the quantity of the crop as determined by the official moisture test; (3) the quantity of the crop as determined by the official foreign matter test; (4) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health; and (5) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health.

Qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following provisions:

The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Any production qualifying under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the end of the insurance period, shall be adjusted under the following provisions:

Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following provisions:

Date: 6/17/2025

Commodity: Wheat (0011)
Plan: Yield Protection (01)
Revenue Protection (02)
Revenue Prot with Harvest Price Exclusion (03)

U.S. Farm Income Stabilization Act (FISMA)
County: Hot Spring (059)

DFs for Vomitoxin:

Vomitoxin Range	DF
0.1 to 10.0 ppm	See Quality Adjustment Tab for Discount Factors
10.1 ppm & above	See C3 below

2. If the level of a substance or condition is less than the maximum allowable, adjust the production in the following manner.
 - a. If the level of a substance or condition is less than the maximum allowable, the DF will be:
 - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of all insurable quality deficiencies, and that value divided by the local market price.
 - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above, plus the applicable DF for the substance or condition.
 - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above, plus the applicable DF for the substance or condition, plus the applicable DF for the substance or condition.
 - iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
 - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, plus the applicable DF for the substance or condition.
 - b. If the level of a substance or condition is less than the maximum allowable, the DF will be:
 - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
 - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
 - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B3 above.

- [illegible]

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-A Grain that does not meet the definition of %sold.-A
