T/P 12	Spring 092	Organic(Transitional) Irr. 712

### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

In accordance with the definition of "production reporting date" in the Basic Provisions, if you submit an application for insurance after the winter sales closing date or land is added after the production reporting date on which the spring type will be planted, the production reporting date will be the earlier of the acreage reporting date or 45 days after the spring sales closing date.

### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

### Premium

\*6 Any acreage in this county with a high risk area designation on the actuarial map will have a rate adjusted in accordance with the high risk area and map area rates table.

### Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Barley (0091)

U.S. House of Representatives

Date: 6/17/2025

Plan: Yield Protection (01)  
Revenue Protection (02)  
Revenue Prot with Harvest Price Exclusion (03)

County: Seward (175)

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

### Quality

#### GENERAL STATEMENTS:

For the purpose of this section, the term "Quality" refers to the quality of the crop as determined by the Quality Adjustment Statement (QAS) and the Quality Adjustment Factor (QAF).

The QAS is a statement that the insured must complete and submit to the insurer. The QAS must be completed and submitted to the insurer by the date specified in the policy. The QAS must be completed and submitted to the insurer by the date specified in the policy. The QAS must be completed and submitted to the insurer by the date specified in the policy.

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

The QAF is a factor that is applied to the production to count to determine the net production to count. The QAF is a factor that is applied to the production to count to determine the net production to count.

The QAF is a factor that is applied to the production to count to determine the net production to count. The QAF is a factor that is applied to the production to count to determine the net production to count.

The QAF is a factor that is applied to the production to count to determine the net production to count. The QAF is a factor that is applied to the production to count to determine the net production to count.

The QAF is a factor that is applied to the production to count to determine the net production to count. The QAF is a factor that is applied to the production to count to determine the net production to count.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the applicable Crop Provisions.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026      Commodity: Barley (0091)      U.S. Marketing Year: 2025  
 Date: 6/17/2025      Plan: Yield Protection (01)  
                                  Revenue Protection (02)  
                                  Revenue Prot with Harvest Price Exclusion (03)

- iii. If the applicable DFs included in sections A or B3 above.

DFs for Aflatoxin:

Aflatoxin Range	DF
0.1 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

A

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
  - a. If the production is sold, fed, utilized in any other manner, or destroyed:
    - i. If the production is sold, fed, utilized in any other manner, or destroyed to a disinterested third party; or
    - ii. If the production is sold, fed, utilized in any other manner, or destroyed to a disinterested third party, the claim will be adjusted based on the applicable DFs.
  - b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:
    - i. If the production is sold, fed, utilized in any other manner, or destroyed to a disinterested third party, the claim will be adjusted based on the applicable DFs.
    - ii. If the production is sold, fed, utilized in any other manner, or destroyed to a disinterested third party, the claim will be adjusted based on the applicable DFs.
  - c. If the production is sold, fed, utilized in any other manner, or destroyed to a disinterested third party, the claim will be adjusted based on the applicable DFs.
  - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, the claim will be adjusted based on the applicable DFs.

### SECTION D - ZERO MARKET VALUE PRODUCTION

## Special Provisions 2026 and Succeeding Crop Years

Uae^kmsa • a • AGED

County: Seward (175)

	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-Grain that does not meet the definition of %Sold.
