### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

## Special Provisions

### 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: Winter AFI D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ada (001)

#### Date

- \*4 If you have selected the winter coverage endorsement (WCE) for the winter types, the following dates applicable to your policy are specified in the Options section within the Dates tab of the Actuarial Information Browser:
- 1) The sales closing date [applicable for both winter and spring types];
  - 2) The final planting date for acreage covered under the WCE and the WCE will not be applicable to acreage planted after this date; and
  - 3) The acreage reporting date for acreage of the winter types covered by this option.

#### Price

- \*5 The Base (contracted) Price will not include added value attributable to hauling expenses beyond the local marketing area or post production operations such as processing (cleaning/drying), sorting, packaging, etc.

#### Insurance Availability

Barley or oats planted with or as a mixture of small grains. Such mixture of small grains will be insurable corresponding to the predominate grain in the mixture (barley or oats).

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

- \*9 Approved malting barley varieties will include all varieties recommended for malting by the American Malting Barley Association for the current crop year, or any variety grown under the terms of a malting barley contract. See the definition of "contract" in the applicable Malting Barley Endorsement.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use All or AFI D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ada (001)

\*10 Insurance shall not attach or be considered to have attached without a written agreement to a planted non-irrigated crop on acreage from which, in the same calendar year:

- 1) A perennial hay crop was harvested; or
- 2) A crop (other than a cover crop) reached the headed or budded stage prior to termination, regardless of the percentage of plants that reached the headed or budded stage;

Termination means growth has ended. To qualify for a written agreement, you must provide a minimum of the most recent three years of your double cropping actual production history for the crop in the county. A cover crop is one that meets the criteria outlined in the Insurance Availability section of these Special Provisions.

\*11 In lieu of section 7(a)(2)(iii) of the Small Grains Crop Provisions, any acreage of fall planted barley not covered by the winter coverage endorsement is not insured unless you request such coverage by notifying your crop insurance agent on or before the spring sales closing date and we determine in writing that the acreage has an adequate stand in the spring to produce the yield used to determine your production guarantee. Insurance will attach to such acreage on the date we determine an adequate stand exists or on the spring final planting date if we do not inspect the acreage by the spring final planting date.

\*12 Approved winter barley varieties for the winter coverage endorsement include only the following: Alba, Boyer, Charles, Eight-Twelve, Endeavor, Hesk, Hoody, Hundred, Kamiak, Kold, Maja, Mal, Scio, Schuyler, Sprinter, Strider, Sunstar Pride, Thunder, Wintmalt and other cultivars approved in writing by FCIC.

### Revenue Protection

There are three ways to insure malting barley: (1) Under yield protection or revenue protection, based on a price calculated in accordance with the Commodity Exchange Price Provisions, as applicable; (2) Under yield protection or revenue protection with added protection provided in accordance with the Malting Barley Endorsement (MBE); or (3) under yield protection, based on a price contained in a production contract as indicated below.

If you produce any of the following specialty barley type(s) (including specialty type(s) grown for seed):

- a) Malting - varieties recommended for malting by the American Malting Barley Association for the current crop year, or any variety grown under the terms of a malting barley contract. Winter and Spring will be separate specialty types if separate type codes exist in the county.
- b) Waxy Hulled - having a waxy appearance and an adhering palea and lemma.
- c) Waxy Hulless - having a waxy appearance and a non-adhering palea and lemma.
- d) Hulless - having a non-adhering palea and lemma, not including waxy hulless barley.

You may elect to exclude coverage for the specialty type(s) under revenue protection (excluding malting barley insured under the MBE) provided you purchase, from the same approved insurance provider, yield protection for the excluded type(s). The yield protection plan of insurance you purchase may have a different coverage level or percentage of projected price than you have for the revenue protection plan of insurance. You may exclude any or all of the specialty type(s) you produce;

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 000000 AF D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ada (001)

however, you must continue to insure all type(s) not excluded under revenue protection.

### Revenue Protection with HPE

There are three ways to insure malting barley: (1) Under yield protection or revenue protection, based on a price calculated in accordance with the Commodity Exchange Price Provisions, as applicable; (2) Under yield protection or revenue protection with added protection provided in accordance with the Malting Barley Endorsement (MBE); or (3) under yield protection, based on a price contained in a production contract as indicated below.

If you produce any of the following specialty barley type(s) (including specialty type(s) grown for seed):

- a) Malting - varieties recommended for malting by the American Malting Barley Association for the current crop year, or any variety grown under the terms of a malting barley contract. Winter and Spring will be separate specialty types if separate type codes exist in the county.
- b) Waxy Hulled - having a waxy appearance and an adhering palea and lemma.
- c) Waxy Hulless - having a waxy appearance and a non-adhering palea and lemma.
- d) Hulless - having a non-adhering palea and lemma, not including waxy hulless barley.

You may elect to exclude coverage for the specialty type(s) under revenue protection (excluding malting barley insured under the MBE) provided you purchase, from the same approved insurance provider, yield protection for the excluded type(s). The yield protection plan of insurance you purchase may have a different coverage level or percentage of projected price than you have for the revenue protection plan of insurance. You may exclude any or all of the specialty type(s) you produce; however, you must continue to insure all type(s) not excluded under revenue protection.

### Yield Protection

If you produce any of the following specialty barley type(s) (including specialty type(s) grown for seed):

- a) Malting - varieties recommended for malting by the American Malting Barley Association for the current crop year, or any variety grown under the terms of a malting barley contract. Winter and Spring will be separate specialty types if separate type codes exist in the county.
- b) Waxy Hulled - having a waxy appearance and an adhering palea and lemma.
- c) Waxy Hulless - having a waxy appearance and a non-adhering palea and lemma.
- d) Hulless - having a non-adhering palea and lemma, not including waxy hulless barley.

appropriate to handle and store specialty type barley production. The contract must be executed by you and the business enterprise, in effect for the crop year, and you

## Special Provisions

### 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: Malt or Feed
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ada (001)

must provide a copy to us no later than the acreage reporting date. To be considered a contract, the executed document must contain:

- (a) A requirement that you plant, grow and deliver specialty type barley to the business enterprise;
- (b) The amount of production that will be accepted or a statement that all production from a specified number of acres will be accepted. To determine the number of acres under contract:
  - (1) For acreage only based contracts and, acreage and production contracts which specify a maximum number of acres, the lesser of:
    - (i) The insured acres (planted acreage and acreage that is prevented from being planted); or
    - (ii) The maximum number of acres specified in the contract.
  - (2) For production only based contracts, the lesser of:
    - (i) The number of acres determined by dividing the production stated in the contract by the approved yield; or
    - (ii) The insured acres (planted acreage and acreage that is prevented from being planted).
  - (3) Acreage in excess of (1) or (2) shall be considered acreage not under contract.
- (c) The price to be paid for the contracted production or a method to determine such price:
  - (1) If the contract provides for a premium amount over a
    - (i) Feed barley price to be determined after the acreage reporting date, the contract price will be the result of adding the premium amount to the published projected price on the acreage reporting date; or
    - (ii) Price other than a feed barley price that is determined after the acreage reporting date, the contract price will be the result of adding the basis or premium amount to the Malt Barley Endorsement published projected price on the acreage reporting date.
  - (2) The price used will be the price in the contract without regard to incentives or discounts.
  - (3) In no case will the contract price exceed the amount determined by multiplying the projected price by the maximum contract price factor shown in the Prices tab in these Actuarial Documents.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 100% @ AFI D
Date: 6/17/2025	Plan: Yield Protection (01)	County: Ada (001)
	Revenue Protection (02)	
	Revenue Prot with Harvest Price Exclusion (03)	

B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period

[illegible]

automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

- [illegible]

1. OPTION TO DELAY CLAIM SETTLEMENT:

- a. If you elect to settle your claim for the full value of the production, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect to settle your claim for the full value of the production.
- c. If you elect to settle your claim for the full value of the production, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- d. If you elect to settle your claim for the full value of the production, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- e. If you elect to settle your claim for the full value of the production, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- g. If you elect to settle your claim for the full value of the production, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

  - i. ÜQ•Áæ[ } óÁÁ•áÁ Á { àq æ } Á æææÖÖÈ
  - ii. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
  - iii. Q@ÜQÁæ ÁÁÁ&æáÁ Á } àq } q \*Á@Á[ á &q } ÈÜQÁ æÁÁ&æáÁ Á@Á•q Á } àq } q \*Á[ çæá@Á• |q \*ÜQÁ ^Á[ á exceed the RIV before conditioning.
  - iv. The RIV and local market price\* are determined on the date such quality adjusted production is sold to a disinterested third party.

### SECTION A - DISCOUNT FACTOR CHARTS

U) Á@ÁæÁ Áá q•] ^&q } ÁÁ@Á } ææÁá & ~ } Áæç!•ÁÁÁç!{ q áÁ•q \*Á@Á || , q \*Áææ ÈQ@ÖQÁ /Á } ^Á~ æ q \*ÁçÁ ÁÁæ } & ÁÁ[ á •q , } Á } Á@Áæ q Á@Á&q } È } Áç!{ q ÁÁ/ÖÖÁ•q \*Á&q } ÁÁ!ÁÁÁ } |ææ|Æ

### GRADE DISCOUNT:

Barley will be discounted for grade as specified within the Quality Adjustment Tab located in the AD.

### TEST WEIGHT DISCOUNT:

Discounts for low test weight are as follows (U.S. No. 5 for Test Weight . ÁÜÈJÁbs. to 36.0 lbs.; U.S. Sample Grade . ÁÍÈJÁbs. and below):

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 00000000 AF D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ada (001)

- v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500,  $\frac{1}{2}$ .
- b. If the producer has sold, fed, or utilized the crop in any other manner, was in on-farm storage and has been sold, or was sold to other than a disinterested third party:
- applicable DFs included in sections A or B2 above.
  - to the applicable DFs included in sections A or B2 above.
  - applicable DFs included in sections A or B3 above.

DFs for Aflatoxin:

Aflatoxin Range	DF
0.0 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

A

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
- a. If the producer has sold, fed, or utilized the crop in any other manner, was in on-farm storage and has been sold, or was sold to other than a disinterested third party:
- disinterested third party; or
  - applicable DFs included in sections A or B3 above.
- b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:
- applicable DFs included in sections A or B3 above.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 100%
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ada (001)

into commercial storage prior to being sold.

- ii. .500 for production that was in on-farm storage and was later sold, was in on-farm storage and was transported to commercial storage and later sold,
- c. If the production is not sold by the end of the insurance period, the production will be adjusted for any quality deficiencies listed in Section C.
- d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period,

### SECTION D - ZERO MARKET VALUE PRODUCTION

Zero market value production occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.

1. The production will be adjusted for any quality deficiencies listed in Section C.
2. The production will be adjusted as follows:
  - a. The production will be adjusted for any quality deficiencies listed in Section C.
  - b. The production will be adjusted for any quality deficiencies listed in Section C.
  - c. The production will be adjusted for any quality deficiencies listed in Section C.
3. The production will be adjusted for any quality deficiencies listed in Section C.

## Special Provisions

### 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: Malting AFI D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Ada (001)

In accordance with section 6(a)(2)(ii) of the MBE, malting barley insured under a malting barley price agreement is eligible for quality adjustment if rejected by the buyer due to insurable causes AND the production failed to meet one or more of the following quality requirements.

#### Malting Barley Price Agreement Quality Standards

A	Six-rowed Malting Barley	Two-rowed Malting Barley
Protein (dry base)	14.0% maximum	13.5% maximum
Plump Kernels	70.0% minimum	75.0% minimum
Thin Kernels	10.0% maximum	10.0% maximum
Germination	96.0% minimum	96.0% minimum
Blight Damaged	4.0% maximum	4.0% maximum
Injured by mold	5.0% maximum	5.0% maximum
Mold Damaged	0.4% maximum	0.4% maximum
Injured by sprout	1.0% maximum	1.0% maximum
Injured by frost	5.0% maximum	5.0% maximum
Frost Damaged	0.4% maximum	0.4% maximum
DON	1.5 ppm maximum	1.0 ppm maximum
