General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the term "quality" means the quality of the crop as determined by the quality adjustment factors.

For the purpose of this section, the term "quality adjustment factors" means the factors that are used to determine the quality of the crop. The quality adjustment factors are considered in determining production to count.

For the purpose of this section, the term "net production" means the production of the crop after the quality adjustment factors are applied. The net production is determined by subtracting the quality adjustment factors from the production of the crop.

For the purpose of this section, the term "qualifying for quality adjustment" means the production of the crop that is eligible for the quality adjustment. The production of the crop is eligible for the quality adjustment if it meets the requirements of this section.

For the purpose of this section, the term "extension of time to harvest" means the period of time that is granted to the producer to harvest the crop. The extension of time to harvest is granted to the producer if the producer meets the requirements of this section.

For the purpose of this section, the term "disinterested third party" means a person or entity that is not involved in the production of the crop. The disinterested third party is the person or entity that is responsible for the sale of the crop.

For the purpose of this section, the term "production qualifying under Sections B or C" means the production of the crop that is eligible for the quality adjustment. The production of the crop is eligible for the quality adjustment if it meets the requirements of this section.

For the purpose of this section, the term "production qualifying for quality adjustment" means the production of the crop that is eligible for the quality adjustment. The production of the crop is eligible for the quality adjustment if it meets the requirements of this section.

- For the purpose of this section, the term "production qualifying for quality adjustment" means the production of the crop that is eligible for the quality adjustment. The production of the crop is eligible for the quality adjustment if it meets the requirements of this section.
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- For the purpose of this section, the term "production qualifying for quality adjustment" means the production of the crop that is eligible for the quality adjustment. The production of the crop is eligible for the quality adjustment if it meets the requirements of this section.
