T/P 12	Spring 012	Organic(Transitional) Irr. 712 *9

### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

### Premium

In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than March 1.

### Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	County: Liberty (291)
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	

\*9 To be eligible to insure your acreage under the Organic (Certified) practice you must provide evidence that you have successfully planted the requested organic crop for a minimum of three years. In one of those three years you must have successfully harvested and marketed the crop as organic and the yield you produced must be at least 50% of the current organic T-Yield. If you do not have such documentation, the acreage may only be insured under the Organic (Transitional) practice offered in this county.

In lieu of the provisions in section 22(a) of the Basic Provisions that says "[h]owever, unless specifically required by policy provisions, you must not obtain any other crop insurance authorized under the Act on your share of the insured crop," you may obtain a Small Grains Crop Insurance policy and an Annual Forage policy on the same acreage that is planted with the intent of grazing the crop first and then later harvesting the crop for grain.

### Quality

#### GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

**Net Production:** The net production of a crop is the total production of the crop, less the production of the crop that is lost due to factors such as weather, pests, or other causes. Net production is determined by subtracting the production of the crop that is lost from the total production of the crop.

**Qualifying Production:** Qualifying production is the net production of a crop that is sold or otherwise disposed of for consumption. Qualifying production is determined by subtracting the production of the crop that is lost from the net production of the crop.

**Quality Adjustment:** A quality adjustment is a reduction in the net production of a crop that is sold or otherwise disposed of for consumption, based on the quality of the crop. A quality adjustment is determined by subtracting the quality adjustment from the net production of the crop.

**Quality Adjustment Statement:** A quality adjustment statement is a statement that the insured has made regarding the quality of the crop. A quality adjustment statement is required for all crops that are sold or otherwise disposed of for consumption.

**Quality Adjustment Factor:** A quality adjustment factor is a factor that is used to determine the quality adjustment. A quality adjustment factor is determined by the insured based on the quality of the crop.

**Quality Adjustment Period:** A quality adjustment period is the period of time during which the quality adjustment is determined. A quality adjustment period is determined by the insured based on the quality of the crop.

**Quality Adjustment Statement:** A quality adjustment statement is a statement that the insured has made regarding the quality of the crop. A quality adjustment statement is required for all crops that are sold or otherwise disposed of for consumption.

- Only one DF for grade can be applied.

## Special Provisions

### 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: HRS, SRW, HRW, HWW, D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Liberty (291)

#### TEST WEIGHT DISCOUNT:

For all Spring and White Club wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 50 lbs.; U.S. Sample Grade . 45 lbs. and below):

Test Weight Pounds	DF
50 and above	None
49.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Hard Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

Test Weight Pounds	DF
51 and above	None
50.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Soft Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

For all Soft Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

SRW, HRW, and HWW classes of wheat will be discounted for excessive Defects as follows:

Defects %	DF
15 and below	None
15.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

SWW, HRS, and DUM classes of wheat will be discounted for excessive Defects as follows:

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 100W/CAQD
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Liberty (291)

Defects %	DF
10 and below	None
10.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

For all classes of wheat, if the average test weight is less than 48 lbs/bu, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below.

### SPROUT DAMAGE DISCOUNT FOR ALL CLASSES

For all classes of wheat, if the average test weight is less than 48 lbs/bu, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below.

Sprout Damage Percent	DF
10 and below	None
10.01 - 15.0	See Quality Adjustment Tab for Discount Factors
Above 15.0	See Section B

### FALLING NUMBER DISCOUNTS:

For all classes of wheat, if the average test weight is less than 48 lbs/bu, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table above.

In addition to the quality deficiencies allowed in section 11 (d) of the Small Grains Crop Provisions, the following quality factors for Falling Number will apply:

All Other Classes of wheat will be discounted for falling number, regardless of U.S. grade designation as follows:

Falling Number Range	DF
299-200	See Quality Adjustment Tab for Discount Factors
Below 200	See Section B

- 
-

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	County: Liberty (291)
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	

DFs for Vomitoxin:

Vomitoxin Range	DF
0.1 - 10.0 ppm	See Quality Adjustment Tab for Discount Factors
10.1 ppm & above	See C3 below

2. If the level of a substance or condition is less than the maximum allowable, adjust the production in the following manner.
  - a. If the level of a substance or condition is less than the maximum allowable, the DF will be:
    - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of all insurable quality deficiencies, and that value divided by the local market price.
    - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above, plus the applicable DF for the substance or condition.
    - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above, plus the applicable DF for the substance or condition, plus the applicable DF for the substance or condition.
    - iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
    - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, plus the applicable DF for the substance or condition.
  - b. If the level of a substance or condition is less than the maximum allowable, the DF will be:
    - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
    - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
    - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B3 above.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use Value: 0.00
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Liberty (291)

DFs for Aflatoxin:

Aflatoxin Range	DF
0.0 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
  - a. If the level of Aflatoxin is 300 ppb or less, the claim will be adjusted based on the quality deficiency factors listed in Section C.
    - i. If the level of Aflatoxin is 300 ppb or less, the claim will be adjusted based on the quality deficiency factors listed in Section C.
    - ii. If the level of Aflatoxin is 300 ppb or less, the claim will be adjusted based on the quality deficiency factors listed in Section C.
  - b. If the level of Aflatoxin is more than 300 ppb, the claim will be adjusted based on the quality deficiency factors listed in Section C.
    - i. If the level of Aflatoxin is more than 300 ppb, the claim will be adjusted based on the quality deficiency factors listed in Section C.
    - ii. If the level of Aflatoxin is more than 300 ppb, the claim will be adjusted based on the quality deficiency factors listed in Section C.
  - c. If the level of Aflatoxin is more than 300 ppb, the claim will be adjusted based on the quality deficiency factors listed in Section C.
  - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

### SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin is more than 300 ppb, the claim will be adjusted based on the quality deficiency factors listed in Section C.

1. If the level of Aflatoxin is more than 300 ppb, the claim will be adjusted based on the quality deficiency factors listed in Section C.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 000/000/000/000
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Liberty (291)

2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
  - a.  $\frac{Q}{A} \times \frac{P}{A} \times \frac{D}{A} \times \frac{E}{A} \times \frac{F}{A} \times \frac{G}{A} \times \frac{H}{A} \times \frac{I}{A} \times \frac{J}{A} \times \frac{K}{A} \times \frac{L}{A} \times \frac{M}{A} \times \frac{N}{A} \times \frac{O}{A} \times \frac{P}{A} \times \frac{Q}{A} \times \frac{R}{A} \times \frac{S}{A} \times \frac{T}{A} \times \frac{U}{A} \times \frac{V}{A} \times \frac{W}{A} \times \frac{X}{A} \times \frac{Y}{A} \times \frac{Z}{A}$  the pre-established DFs.
  - b.  $\frac{Q}{A} \times \frac{P}{A} \times \frac{D}{A} \times \frac{E}{A} \times \frac{F}{A} \times \frac{G}{A} \times \frac{H}{A} \times \frac{I}{A} \times \frac{J}{A} \times \frac{K}{A} \times \frac{L}{A} \times \frac{M}{A} \times \frac{N}{A} \times \frac{O}{A} \times \frac{P}{A} \times \frac{Q}{A} \times \frac{R}{A} \times \frac{S}{A} \times \frac{T}{A} \times \frac{U}{A} \times \frac{V}{A} \times \frac{W}{A} \times \frac{X}{A} \times \frac{Y}{A} \times \frac{Z}{A}$
  - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3.  $\frac{Q}{A} \times \frac{P}{A} \times \frac{D}{A} \times \frac{E}{A} \times \frac{F}{A} \times \frac{G}{A} \times \frac{H}{A} \times \frac{I}{A} \times \frac{J}{A} \times \frac{K}{A} \times \frac{L}{A} \times \frac{M}{A} \times \frac{N}{A} \times \frac{O}{A} \times \frac{P}{A} \times \frac{Q}{A} \times \frac{R}{A} \times \frac{S}{A} \times \frac{T}{A} \times \frac{U}{A} \times \frac{V}{A} \times \frac{W}{A} \times \frac{X}{A} \times \frac{Y}{A} \times \frac{Z}{A}$  manner, or destroyed unless Section C3d applies. An automatic 30 day extension of time will be allowed for you to submit your claim for indemnity.

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-As a person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-Grain that does not meet the definition of %Sold.
