General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

- DFs for Vomitoxin:

2. If the value of the production at the time of final adjustment for the unit is less than the maximum allowable, adjust the production in the following manner:

a. If the production is sold or otherwise disposed of before the date of final adjustment for the unit, the DF will be:

i. The value of the production at the time of final adjustment for the unit divided by the local market price.

ii. The value of the production at the time of final adjustment for the unit multiplied by the applicable DFs included in sections A or B2 above.

iii. The value of the production at the time of final adjustment for the unit multiplied by the applicable DFs included in sections A or B2 above.

iv. The value of the production at the time of final adjustment for the unit multiplied by the applicable DFs included in sections A or B2 above.

v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, unless the production is sold or otherwise disposed of before the date of final adjustment for the unit, in which case the DF will be 1.000.

b. If on the date of final adjustment for the unit, the unsold production is in on-farm storage, is in commercial storage but was not transported directly from the field, was fed or utilized in any other manner, was in on-farm storage and has been sold, or was sold to other than a disinterested third party:

i. The value of the production at the time of final adjustment for the unit multiplied by the applicable DFs included in sections A or B2 above.

ii. The value of the production at the time of final adjustment for the unit multiplied by the applicable DFs included in sections A or B2 above.

iii. The value of the production at the time of final adjustment for the unit multiplied by the applicable DFs included in sections A or B2 above.

DFs for Aflatoxin:

Aflatoxin Range	DF
0.1 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
 - a. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - ii. If the claimant is a producer, the claimant's share of the RIV shall be the claimant's share of the RIV as a percentage of the total RIV for the claimant's production.
 - b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:
 - i. If the claimant is a producer, the claimant's share of the RIV shall be the claimant's share of the RIV as a percentage of the total RIV for the claimant's production.
 - ii. If the claimant is a processor, the claimant's share of the RIV shall be the claimant's share of the RIV as a percentage of the total RIV for the claimant's production.
 - c. If the claimant is a processor, the claimant's share of the RIV shall be the claimant's share of the RIV as a percentage of the total RIV for the claimant's production.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the claimant is a producer, the claimant's share of the RIV shall be the claimant's share of the RIV as a percentage of the total RIV for the claimant's production.
