General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Special Provisions

2026 and Succeeding Crop Years

Year: 2026

Commodity: Wheat (0011)

Upland, 2026

Date: 6/17/2025

Plan: Yield Protection (01)

County: Montgomery (137)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this policy, the term "adequate stand" means a stand of wheat that is capable of producing a yield of at least 1 bushel per acre.

For the purpose of this policy, the term "adequate stand" means a stand of wheat that is capable of producing a yield of at least 1 bushel per acre. The yield used to determine your production guarantee will be the yield of the stand that is inspected on the date the acreage is inspected. If the yield of the stand is less than 1 bushel per acre, the yield used to determine your production guarantee will be the yield of the stand that is inspected on the date the acreage is inspected.

For the purpose of this policy, the term "adequate stand" means a stand of wheat that is capable of producing a yield of at least 1 bushel per acre. The yield used to determine your production guarantee will be the yield of the stand that is inspected on the date the acreage is inspected. If the yield of the stand is less than 1 bushel per acre, the yield used to determine your production guarantee will be the yield of the stand that is inspected on the date the acreage is inspected.

For the purpose of this policy, the term "adequate stand" means a stand of wheat that is capable of producing a yield of at least 1 bushel per acre. The yield used to determine your production guarantee will be the yield of the stand that is inspected on the date the acreage is inspected. If the yield of the stand is less than 1 bushel per acre, the yield used to determine your production guarantee will be the yield of the stand that is inspected on the date the acreage is inspected.

Year: 2026

Commodity: Wheat (0011)

Uae^kmmQ, æAFJD

Date: 6/17/2025

Plan: Yield Protection (01)

County: Montgomery (137)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

This statement does not supersede the provisions contained in section 14 (e) in the Basic Provisions.

3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period (EOIP).

Q We determine you are prevented from harvesting by the calendar date for the EOIP due to an insurable cause of damage that occurred during the insurance period and we allow an extension of time to harvest, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA

[illegible]

If you elect to delay measurement of farm stored production as provided in the Basic Provisions, all samples of farm stored production used to determine insurable quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

[illegible]

6. ZERO MARKET VALUE

On the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be
market value, except for production fed or used in any other manner.
