General

For the purpose of section 12(d)(1)(iii) of the Southern & Central Potato Crop Provisions, the date potatoes would have reached full maturity will be 100 days after the date of planting or replanting.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

HIP-WI ENDORSEMENT - Any part of Monroe County, Florida (as identified by the United States Census Bureau), south of Latitude 25 degree North, will be used to trigger Monroe County due to a hurricane weather event, but will not be used to trigger any counties adjacent to Monroe. No part of Monroe County, Florida, (as identified by the United States Census Bureau), south of Latitude 25 degree North, will be used to trigger any counties due to a tropical storm weather event.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Potatoes (0084)	Use All or 1st FD
Date: 6/4/2025	Plan: APH (90)	County: Collier (021)

Written Agreements

In accordance with section 8 of the Basic Provisions, insurance shall not attach to planted acres intended to be harvested as creamer size potatoes, unless provided by written agreement.

Type

- *6 Varieties insurable as Group B: Russets, chipper (processing) varieties, and all white and yellow varieties for which coverage is not provided for in Group A.
- *7 Varieties insurable as Group A: Almera, Arizona, Colomba, Electra, Envol, Fabula, Harley Blackwell, LaChipper, Mainstay, Malou, Natascha, Satina, Sebago, Superior, Vivaldi, Volare, Yellow Star, Yukon Gold, and all red varieties. Additionally, other varieties of table stock potatoes may be insurable under the Group A Type by written agreement provided that: 1) The variety is documented to be a table stock variety which is adapted to the area and able to produce at least the county T-Yield for Group A type; and 2) The insured controls a packing facility capable of packing, grading, and handling potatoes for the fresh market or has a packing contract executed with a table stock potato packer whereby the packer agrees to accept and pack the production specified in the contract.

Date

- *8 Insurance will attach only on potatoes planted during the period of October 1 - January 10, and the calendar date for the end of insurance period for this county program is June 10.

Price

Only one price election percentage will be applicable for all potato types insured under one potato policy. For example, if you elect a price election for one type equal to 80% of the established price, the price election applicable for other potato types must also be 80% of the established price.

In the event of loss or damage on a unit for which more than one price election is applicable, we will settle your claim by:

- (a) Multiplying the insured acreage of each type (161/261) by the production guarantee;
- (b) Multiplying each result by the price election for the applicable type;
- (c) Adding these dollar values;
- (d) Multiplying the production to count of each type by the price election for that type;
- (e) Adding these dollar values;
- (f) Subtracting the result of step (e) from the result of step (c); and,
- (g) Multiplying the result by your share.

Contract price:

You may use a contract price to determine your insurance guarantee when a contract price code of ~~yes~~ exists on the Prices tab in the actuarial documents for the crop, type, and practice.

Contract price authority (i.e., rules governing the use of contract prices and the method to determine a contract price) will be found in one of the following three places, listed in priority order:

Special Provisions

2026 and Succeeding Crop Years

Year: 2026	Commodity: Potatoes (0084)	Use NRI or IRI
Date: 6/4/2025	Plan: APH (90)	County: Collier (021)

1. Special Provisions, separate from this statement, which authorizes the use of the Contract Price Addendum (CPA);
2. Crop Provisions; or
3. CPA.

When the contract price code is ~~yes~~ ☒ on the Prices tab for the crop, type, and practice:

1. If the Crop Provisions or Special Provisions provide the contract price authority, your price will be determined in accordance with the Crop Provisions or Special Provisions. If neither the Crop Provisions or Special Provisions provide contract price authority, your price will be determined in accordance with the CPA; and
2. The Crop Provisions or Special Provisions may only provide contract price authority for specific types or practices. When this occurs, the CPA may be used to determine a contract price for other types or practices where contract price authority is not provided through the Crop Provisions or these Special Provisions.

Insurance Availability

Nematode damage will not be an insurable cause of loss unless a recommended preplant nematocide treatment of the soil is administered for the current crop year.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Any acreage designated as unrated on the actuarial map will be insurable only by written agreement. Contact your crop insurance agent by the sales closing date to determine eligibility requirements.

Quality

With regard to Grade Inspections and the respective U.S. Grade Standard (i.e. Processing, Chipping, Seed and all other Potatoes), the only size modifications recognized are those instituted by State or Federal Marketing Orders.
