T/P 6	Winter 011	Organic(Transitional) Irr. 712

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 00000000000000000000
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Grant (053)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For all purposes, the quality of the crop shall be determined by the quality of the crop as it is presented for harvest.

For all purposes, the quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest.

For all purposes, the quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest.

For all purposes, the quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest.

For all purposes, the quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest.

For all purposes, the quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest.

For all purposes, the quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest.

For all purposes, the quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest.

- For all purposes, the quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest.
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- For all purposes, the quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest. The quality of the crop shall be determined by the quality of the crop as it is presented for harvest.

Special Provisions

2026 and Succeeding Crop Years

Year: 2026
Date: 6/17/2025

Commodity: Wheat (0011)
Plan: Yield Protection (01)
Revenue Protection (02)
Revenue Prot with Harvest Price Exclusion (03)

Use: 100%
County: Grant (053)

allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A, claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not

If you elect to delay measurement of farm stored production as provided in the Basic Provisions, all samples of farm stored production used to determine insurable quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not later than 30 days after the 180th day.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

On the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be sold to other than a disinterested third party, fed, utilized in any other manner, or when a pre-established DF is applicable.

6. ZERO MARKET VALUE

On the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be sold to other than a disinterested third party, fed, utilized in any other manner.

7. REDUCTION IN VALUE (RIV):

- Moisture content;
- Damage due to uninsured causes;
- Drying;
- Handling;
- Processing; or

DFs for Vomitoxin:

Vomitoxin Range	DF
0.1 - 0.9 ppm	See Quality Adjustment Tab for Discount Factors
10.1 ppm & above	See C3 below

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Upland Cotton
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Grant (053)

2. If the level of any of the following substances or conditions is less than the maximum allowable, adjust the production in the following manner.
 - a. If the level of any of the following substances or conditions is less than the maximum allowable, the DF will be:
 - i. If the level of any of the following substances or conditions is less than the maximum allowable, the DF will be the sum of the applicable DFs for all insurable quality deficiencies, and that value divided by the local market price.
 - ii. If the level of any of the following substances or conditions is less than the maximum allowable, the DF will be the sum of the applicable DFs for all insurable quality deficiencies, and that value divided by the local market price, plus the applicable DFs for C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2 above.
 - iii. If the level of any of the following substances or conditions is less than the maximum allowable, the DF will be the sum of the applicable DFs for all insurable quality deficiencies, and that value divided by the local market price, plus the applicable DFs for C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2 above.
 - iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
 - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, added to the applicable DFs included in sections A, or B2 above.
 - b. If the level of any of the following substances or conditions is less than the maximum allowable, the DF will be the sum of the applicable DFs for all insurable quality deficiencies, and that value divided by the local market price, plus the applicable DFs for C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2 above.
 - i. If the level of any of the following substances or conditions is less than the maximum allowable, the DF will be the sum of the applicable DFs for all insurable quality deficiencies, and that value divided by the local market price, plus the applicable DFs for C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2 above.
 - ii. If the level of any of the following substances or conditions is less than the maximum allowable, the DF will be the sum of the applicable DFs for all insurable quality deficiencies, and that value divided by the local market price, plus the applicable DFs for C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2 above.
 - iii. If the level of any of the following substances or conditions is less than the maximum allowable, the DF will be the sum of the applicable DFs for all insurable quality deficiencies, and that value divided by the local market price, plus the applicable DFs for C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B3 above.

DFs for Aflatoxin:

Aflatoxin Range	DF
0.1 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under

Special Provisions

2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Underlying Contract: D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Grant (053)

Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.

- a. If you destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:

 - i. If you destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
 - ii. If you destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
- b. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:

 - i. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
 - ii. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
- c. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.
- d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

SECTION D - ZERO MARKET VALUE PRODUCTION

If you destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:

1. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:

 - a. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
 - b. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.
