General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

In accordance with the definition of "production reporting date" in the Basic Provisions, if you submit an application for insurance after the winter sales closing date or land is added after the production reporting date on which the spring type will be planted, the production reporting date will be the earlier of the acreage reporting date or 45 days after the spring sales closing date.

Practice

- *4 The current crop year:
1. The acreage must not have been planted to a crop (excluding a cover crop, see exceptions below) during the preceding crop year; and

2. Any plant growth, including weeds, volunteer crops, existing perennial vegetation (including acreage emerging from USDA programs (such as CRP) and/or new breaking acreage), must be terminated a full crop year before planting a crop, and

3. Any additional plant re-growth must be terminated on or before June 1, and any later plant growth (e.g. weeds, volunteer crop) must be controlled by mechanical or chemical means.
- (b) The following are exceptions to these requirements:
1. Failed Crop Exception: Acreage will qualify as summerfallow the current crop year, if a crop (excluding a cover crop) was planted the preceding crop year:

i. On acreage qualifying as summerfallow; and

ii. Was not harvested; and

iii. Failed and was terminated on or before June 1, and any later plant growth was controlled by mechanical or chemical means.

2. Cover Crop Exception: Acreage will qualify for the summerfallow practice in the current crop year if a cover crop was planted during the preceding crop year, provided the cover crop was:

County: Carbon (007)

- i. Not hayed, grazed or otherwise harvested; and
- ii. Terminated according to the NRCS Cover Crop Termination Guidelines and any later plant growth was controlled by mechanical or chemical means.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Any acreage planted to a hay/forage variety (including but not limited to Willow Creek) is not insurable, unless grown for harvest or sale as seed. A written agreement will be required to insure any hay/forage variety grown for harvest or sale as seed.

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

For production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

- For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

1.

1. OPTION TO DELAY CLAIM SETTLEMENT

- On the date of final inspection for the unit, if any of your unsold**** production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DF's for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:
- For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:
- For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:
- For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:
- For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

3. If you elect to delay settlement as specified in the General Statements above, you will not be eligible for a payment under this plan for the 2026 crop year.

SECTION C - SUBSTANCES OR CONDITIONS THAT ARE INJURIOUS TO HUMAN OR ANIMAL HEALTH

Voting members of the board of directors of the insured entity shall determine whether the insured entity is in compliance with the provisions of this section A or B above, except as shown in C3 below.

Our health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the adjuster's report shall be a condition of payment.

Voting members of the board of directors of the insured entity shall determine whether the insured entity is in compliance with the provisions of this section A or B above, except as shown in C3 below. If the insured entity is in compliance with the provisions of this section A or B above, the insured entity shall not be eligible for a payment under this plan for the 2026 crop year. If the insured entity is not in compliance with the provisions of this section A or B above, the insured entity shall be eligible for a payment under this plan for the 2026 crop year. If the insured entity is in compliance with the provisions of this section A or B above, the insured entity shall not be eligible for a payment under this plan for the 2026 crop year. If the insured entity is not in compliance with the provisions of this section A or B above, the insured entity shall be eligible for a payment under this plan for the 2026 crop year.

Substances or conditions in excess of the amount allowed by the lower of the following:

- Voting members of the board of directors of the insured entity shall determine whether the insured entity is in compliance with the provisions of this section A or B above, except as shown in C3 below.
- Our health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the adjuster's report shall be a condition of payment.
- Our health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the adjuster's report shall be a condition of payment.

Our health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the adjuster's report shall be a condition of payment.

- Our health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the adjuster's report shall be a condition of payment.
