General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Date

*4 In lieu of section 6 (a)(2) of the Basic Provisions, you must submit your acreage report on or before the acreage reporting date contained in these Special Provisions.

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

Production means the quantity of a crop, as determined by the following factors: (1) the quantity of the crop as determined by the official yield test; (2) the quantity of the crop as determined by the official moisture test; (3) the quantity of the crop as determined by the official foreign matter test; (4) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health; and (5) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health.

Net Production means the quantity of a crop, as determined by the following factors: (1) the quantity of the crop as determined by the official yield test; (2) the quantity of the crop as determined by the official moisture test; (3) the quantity of the crop as determined by the official foreign matter test; (4) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health; and (5) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health.

Qualifying for quality adjustment means the quantity of a crop, as determined by the following factors: (1) the quantity of the crop as determined by the official yield test; (2) the quantity of the crop as determined by the official moisture test; (3) the quantity of the crop as determined by the official foreign matter test; (4) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health; and (5) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health.

Extension of time to harvest means the quantity of a crop, as determined by the following factors: (1) the quantity of the crop as determined by the official yield test; (2) the quantity of the crop as determined by the official moisture test; (3) the quantity of the crop as determined by the official foreign matter test; (4) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health; and (5) the quantity of the crop as determined by the official test for the presence of substances or conditions that are injurious to human or animal health.

Any production qualifying under section B or C (except for section C3) that is sold** to other than a disinterested third party**, or that is not sold 60 days after the**

Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in
