#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

#### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Oats (0016)	Underlying Contract: 13001D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Barnwell (011)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

### Quality

#### GENERAL STATEMENTS:

For any production qualifying under section B or C (except for section C3) that is sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the end of the insurance period

For production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

For any production qualifying under section B or C (except for section C3) that is sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the end of the insurance period

For production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

- Sections C1 or C2 and Section A below, the DF will be determined by adding the applicable DFs from Section A to the applicable DFs from Sections C1 or C2.
- For production qualifying under section B or C (except for section C3) that is sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the end of the insurance period
- For production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Oats (0016)

Unit: MT/acre

Date: 6/17/2025

Plan: Yield Protection (01)

County: Barnwell (011)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

### 1. OPTION TO DELAY CLAIM SETTLEMENT:

- On the date of final inspection for the unit, if any of your unsold\*\*\*\* production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- For any production sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- If the production is later sold, we will not recalculate or adjust your claim for indemnity.
- For any production sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- If the production is later sold, we will not recalculate or adjust your claim for indemnity.
- For any production sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- If the production is later sold, we will not recalculate or adjust your claim for indemnity.

Only when it has been determined that the production qualifies for quality adjustment will the provisions in this Quality Adjustment Statement apply, otherwise this SP statement does not supersede the provisions contained in section 14(e) in the Basic Provisions.

Only when it has been determined that the production qualifies for quality adjustment will the provisions in this Quality Adjustment Statement apply, otherwise this SP statement does not supersede the provisions contained in section 14(e) in the Basic Provisions.

Unless the AIP grants an extension to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C

Unless the AIP grants an extension to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C will be taken within 60 days after the calendar date for the EOIP. If you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, we will allow an extension of time to harvest, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA will be taken within 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A will be used to determine your claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest the crop.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026  
Date: 6/17/2025

Commodity: Oats (0016)  
Plan: Yield Protection (01)  
Revenue Protection (02)  
Revenue Prot with Harvest Price Exclusion (03)

U.S. Farm Income  
County: Barnwell (011)

- b. If the producer's yield of oats is less than the yield of oats in the base period, the producer's yield of oats will be:
  - i. The yield of oats in the base period multiplied by the ratio of the yield of oats in the base period to the yield of oats in the base period.
  - ii. The yield of oats in the base period multiplied by the ratio of the yield of oats in the base period to the yield of oats in the base period.
- c. If the producer's yield of oats is less than the yield of oats in the base period, the producer's yield of oats will be:
  - i. The yield of oats in the base period multiplied by the ratio of the yield of oats in the base period to the yield of oats in the base period.
  - ii. The yield of oats in the base period multiplied by the ratio of the yield of oats in the base period to the yield of oats in the base period.
- d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, such production will not be adjusted for any deficiencies listed in Section C.

### ZERO MARKET VALUE PRODUCTION

If the producer's yield of oats is less than the yield of oats in the base period, the producer's yield of oats will be:

1. The yield of oats in the base period multiplied by the ratio of the yield of oats in the base period to the yield of oats in the base period.
2. If the producer's yield of oats is less than the yield of oats in the base period, the producer's yield of oats will be:
  - a. For production in Section A, the pre-established DFs.
  - b. The yield of oats in the base period multiplied by the ratio of the yield of oats in the base period to the yield of oats in the base period.
  - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. If the producer's yield of oats is less than the yield of oats in the base period, the producer's yield of oats will be:
  - i. The yield of oats in the base period multiplied by the ratio of the yield of oats in the base period to the yield of oats in the base period.
  - ii. The yield of oats in the base period multiplied by the ratio of the yield of oats in the base period to the yield of oats in the base period.

## Special Provisions

### 2026 and Succeeding Crop Years

Year: 2026	Commodity: Oats (0016)	Use Name: Oats (0016)
Date: 6/17/2025	Plan: Yield Protection (01)	County: Barnwell (011)
	Revenue Protection (02)	
	Revenue Prot with Harvest Price Exclusion (03)	

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer
*****	%Unsold-A Grain that does not meet the definition of %Sold.
