#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

#### Date

\*4 In lieu of section 6 (a)(2) of the Basic Provisions, you must submit your acreage report on or before the acreage reporting date contained in these Special Provisions.

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

## Special Provisions 2026 and Succeeding Crop Years

Ùæ^kMÔæ[!}ã(ÊD

County: Tulare (107)

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

**Insured Crop:** In addition to section 6 of the Small Grains Crop Provisions, the person must submit acceptable records of acreage and harvested grain production for the non-irrigated practice by the production reporting date. On a county basis, these records must show that the person planted and harvested eighty percent of their acreage for grain in at least one year of the last five consecutive crop years. Using another producer's records does not meet this requirement. The person must provide supporting evidence/verifiable records of the grain production in accordance with the Crop Insurance Handbook procedures.

County: Tulare (107)

Q3. A claimant who harvests grain after the calendar date for the EOIP, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA { } shall be taken by the claimant at the farmstead or other place where the grain was stored prior to delivery to the elevator. The claimant shall submit the samples to the county auditor's office for testing. If the claimant fails to submit the samples to the county auditor's office for testing within the 60-day period, the claimant shall forfeit the right to file a claim for indemnity. If the claimant submits the samples to the county auditor's office for testing and the results show that the grain does not meet the minimum quality standards, the claimant shall be entitled to a refund of the premium paid for the crop. If the claimant submits the samples to the county auditor's office for testing and the results show that the grain meets the minimum quality standards, the claimant shall be entitled to a refund of the premium paid for the crop.

your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A, shall be used to calculate the claimant's loss. If the claimant fails to market the grain within the 30-day period, the claimant shall forfeit the right to file a claim for indemnity. If the claimant markets the grain within the 30-day period and the results show that the grain does not meet the minimum quality standards, the claimant shall be entitled to a refund of the premium paid for the crop. If the claimant markets the grain within the 30-day period and the results show that the grain meets the minimum quality standards, the claimant shall be entitled to a refund of the premium paid for the crop.

claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest the crop. If the claimant fails to file a claim for indemnity within the 60-day period, the claimant shall forfeit the right to file a claim for indemnity. If the claimant files a claim for indemnity within the 60-day period and the results show that the grain does not meet the minimum quality standards, the claimant shall be entitled to a refund of the premium paid for the crop. If the claimant files a claim for indemnity within the 60-day period and the results show that the grain meets the minimum quality standards, the claimant shall be entitled to a refund of the premium paid for the crop.
