General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Premium

In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than March 15.

Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

0. The following provisions apply to the production of the commodity described in the plan for the crop year 2026 and succeeding crop years.

1. The following provisions apply to the production of the commodity described in the plan for the crop year 2026 and succeeding crop years.

2. The following provisions apply to the production of the commodity described in the plan for the crop year 2026 and succeeding crop years. The quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for the program. The quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for the program. The quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for the program.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

0. The following provisions apply to the production of the commodity described in the plan for the crop year 2026 and succeeding crop years. The production must be sold to other than a disinterested third party, fed, utilized in any other manner, or when a pre-established DF is applicable.

6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be eligible for the program, except for production fed or used in any other manner.

7. REDUCTION IN VALUE (RIV):

0. The following provisions apply to the production of the commodity described in the plan for the crop year 2026 and succeeding crop years.

- a. T [a c ' ^ &] } d A
- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;

disinterested third party; or

- ii. If the producer or landlord is not a disinterested third party, the production will be adjusted as follows:
 - a. If the production is less than the guaranteed production, the production will be adjusted as follows:
 - i. The production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - ii. If the production is greater than the guaranteed production, the production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - b. If the production is greater than the guaranteed production, the production will be adjusted as follows:
 - i. The production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - ii. If the production is greater than the guaranteed production, the production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - c. If the production is less than the guaranteed production, the production will be adjusted as follows:
 - i. The production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - ii. If the production is greater than the guaranteed production, the production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, such production will not be adjusted for any deficiencies listed in Section C.

ZERO MARKET VALUE PRODUCTION

If the production is less than the guaranteed production, the production will be adjusted as follows:

1. The production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
2. If the production is greater than the guaranteed production, the production will be adjusted as follows:
 - a. For production in Section A, the pre-established DFs.
 - b. If the production is less than the guaranteed production, the production will be adjusted to the guaranteed production.
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. If the production is less than the guaranteed production, the production will be adjusted as follows:
 - i. The production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - ii. If the production is greater than the guaranteed production, the production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
