General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

In accordance with the definition of "production reporting date" in the Basic Provisions, if you submit an application for insurance after the winter sales closing date or land is added after the production reporting date on which the spring type will be planted, the production reporting date will be the earlier of the acreage reporting date or 45 days after the spring sales closing date.

Practice

- *4 Continuous Cropping : Any non-irrigated production practice that does not qualify as a summerfallow practice.
- *5 Summerfallow :

year:

1. The acreage must not have been planted to a crop (excluding a cover crop, see exceptions below) during the preceding crop year; and
2. Any plant growth, including weeds, volunteer crops, existing perennial vegetation (including acreage emerging from USDA programs (such as CRP) and/or

Special Provisions 2026 and Succeeding Crop Years

| | | |
|-----------------|--|----------------------------------|
| Year: 2026 | Commodity: Wheat (0011) | Use: WHT [} as a CHD |
| Date: 6/17/2025 | Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03) | County: Broadwater (007) |

3. Any additional plant re-growth must be terminated on or before June 15, and any later plant growth (e.g. weeds, volunteer crop) must be controlled by mechanical or chemical means.

(b) The following are exceptions to these requirements:

1. Failed Crop Exception: Acreage will qualify as summerfallow the current crop year, if a crop (excluding a cover crop) was planted the preceding crop year:
 - i. On acreage qualifying as summerfallow; and
 - ii. Was not harvested; and
 - iii. Failed and was terminated on or before June 15, and any later plant growth was controlled by mechanical or chemical means.
2. Cover Crop Exception: Acreage will qualify for the summerfallow practice in the current crop year if a cover crop was planted during the preceding crop year, provided the cover crop was:
 - i. Not hayed, grazed or otherwise harvested; and
 - ii. Terminated according to the NRCS Cover Crop Termination Guidelines and any later plant growth was controlled by mechanical or chemical means.

Date

- *6 Acreage insured under the winter coverage endorsement will have a final planting date of October 31. The winter coverage endorsement is not applicable to winter wheat acreage initially planted after October 31. Acreage insured under the winter coverage endorsement will have an acreage reporting date of November 15.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Any acreage planted to a hay/forage variety (including but not limited to Willow Creek) is not insurable, unless grown for harvest or sale as seed. A written agreement will be required to insure any hay/forage variety grown for harvest or sale as seed.

County: Broadwater (007)

If you elect to delay measurement of farm stored production as provided in the Basic Provisions, all samples of farm stored production used to determine insurable quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment.

[illegible]

On the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be
market value, except for production fed or used in any other manner.

SPROUT DAMAGE DISCOUNT FOR ALL CLASSES

When the producer uses the Falling Number Discount Factors Table or the Sprout Damage Discount Table below, the production is not eligible for any additional discount factor in the Falling Number Discount Tables below.

| Sprout Damage Percent | DF |
|-----------------------|---|
| 10 and below | None |
| 10.01 - 15.0 | See Quality Adjustment Tab for Discount Factors |
| Above 15.0 | See Section B |

FALLING NUMBER DISCOUNTS:

When the producer uses the Falling Number Discount Table, the production is not eligible for any further sprout damage discount in the Defects Discount Table or the Sprout Damage Discount Table above.

In addition to the quality deficiencies allowed in section 11 (d) of the Small Grains Crop Provisions, the following quality factors for Falling Number will apply:

All Other Classes of wheat will be discounted for falling number, regardless of U.S. grade designation as follows:

| Falling Number Range | DF |
|----------------------|---|
| 299-200 | See Quality Adjustment Tab for Discount Factors |
| Below 200 | See Section B |

À

Falling Numbers - Durum:

Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.

- a. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- i. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- ii. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- b. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- i. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- ii. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- c. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.

1. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
 - a. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
 - b. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
