T/P 6	Winter 011	Organic(Transitional) Irr. 712

General

Optional unit division is NOT available by section or section equivalent. Optional unit division is available based on Farm Serial Number (FSN) and any other method specified in the Basic Provisions or Crop Provisions except section or section equivalent. To be eligible for the available methods of optional unit division, you must meet all applicable requirements.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Special Provisions 2026 and Succeeding Crop Years

County: Butler (031)

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Any acreage designated as unrated on the actuarial map will be insurable only by written agreement. Contact your crop insurance agent by the sales closing date to determine eligibility requirements.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the term "net production" means the production of a crop after adjustment factors are considered in determining production to count.

For the purpose of this section, the term "net production" means the production of a crop after adjustment factors are considered in determining production to count.

If you elect to delay measurement of farm stored production as provided in the Basic Provisions, all samples of farm stored production used to determine insurable quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment.

[illegible]

On the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be
market value, except for production fed or used in any other manner.

applicable DFs shown in the chart below added to the applicable DFs included in sections A or B3 above.

DFs for Vomitoxin:

Vomitoxin Range	DF
0.1 to 10.0 ppm	See Quality Adjustment Tab for Discount Factors
10.1 ppm & above	See C3 below

2. If a producer's wheat contains a level of vomitoxin greater than the maximum allowable, adjust the production in the following manner.
 - a. If the producer's wheat is sold or put into commercial storage without going into on farm storage, the DF will be:
 - i. If the producer's wheat is sold or put into commercial storage without going into on farm storage, the DF will be the sum of the applicable quality deficiencies, and that value divided by the local market price.
 - ii. If the producer's wheat is sold or put into commercial storage without going into on farm storage, the DF will be the sum of the applicable quality deficiencies, and that value divided by the local market price, plus the applicable DFs included in sections A or B2 above.
 - iii. If the producer's wheat is sold or put into commercial storage without going into on farm storage, the DF will be the sum of the applicable quality deficiencies, and that value divided by the local market price, plus the applicable DFs included in sections A or B2 above, plus the applicable DFs included in sections A or B2 above.
 - iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
 - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, plus the applicable DFs included in sections A or B2 above.
 - b. If the producer's wheat is sold or put into commercial storage without going into on farm storage, the DF will be:
 - i. If the producer's wheat is sold or put into commercial storage without going into on farm storage, the DF will be the sum of the applicable quality deficiencies, and that value divided by the local market price, plus the applicable DFs included in sections A or B2 above.
 - ii. If the producer's wheat is sold or put into commercial storage without going into on farm storage, the DF will be the sum of the applicable quality deficiencies, and that value divided by the local market price, plus the applicable DFs included in sections A or B2 above.
 - iii. If the producer's wheat is sold or put into commercial storage without going into on farm storage, the DF will be the sum of the applicable quality deficiencies, and that value divided by the local market price, plus the applicable DFs included in sections A or B3 above.

2026 and Succeeding Crop Years

Year: 2026
Date: 6/17/2025
Commodity: Wheat (0011)
Plan: Yield Protection (01)
Revenue Protection (02)
Revenue Prot with Harvest Price Exclusion (03)
Use: 100%
County: Butler (031)

DFs for Aflatoxin:

Table with 2 columns: Aflatoxin Range, DF. Rows include 0-300.1 ppb (See Quality Adjustment Tab for Discount Factors) and 300.1 ppb & above (See C3 below).

- 3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed...
a. If the claimant is a producer, the claimant must provide...
b. If the claimant is a processor, the claimant must provide...
c. If the claimant is a distributor, the claimant must provide...
d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the claimant is a producer, the claimant must provide...

- 1. If the claimant is a producer, the claimant must provide...

Special Provisions 2026 and Succeeding Crop Years

Year: 2026
Date: 6/17/2025

Commodity: Wheat (0011)
Plan: Yield Protection (01)
Revenue Protection (02)
Revenue Prot with Harvest Price Exclusion (03)

U.S. Farm Income Stabilization Act (FISMA)
County: Butler (031)

2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
 - a. $\frac{1}{2}$ of the pre-established DFs.
 - b. $\frac{1}{3}$ of the pre-established DFs.
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer. An automatic 30 day extension of time will be allowed for you to submit your claim for indemnity.

*	%Local Market Price-	As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-	A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-	Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-	Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-	Grain that does not meet the definition of %Sold.
