#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 1000 • 2026
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Edwards (047)

### Practice

- \*4 Continuous Cropping . Any non-irrigated production practice that does not qualify as a summerfallow practice.
- \*5 ~~U { { ^-a|| , AqDZ,| [ a & } } Aa& Aa^aA Aq| , A [ aA [ a c | ^A^A| A A & ^a^A^Aa \* Aa^a^Aa| , A| Aa ||&| ] A^aE| A^aA| AaA| A| ,~~  
the current crop year:
1. The acreage must not have been planted to a crop (excluding a cover crop, see exceptions below) during the preceding crop year; and
  2. Any plant growth, including weeds, volunteer crops, existing perennial vegetation (including acreage emerging from USDA programs (such as CRP) and/or new breaking acreage), must be terminated a full crop year before planting a crop, and
  3. Any additional plant re-growth must be terminated on or before June 1, and any later plant growth (e.g. weeds, volunteer crop) must be controlled by mechanical or chemical means.
- (b) The following are exceptions to these requirements:
1. Failed Crop Exception: Acreage will qualify as summerfallow the current crop year, if a crop (excluding a cover crop) was planted the preceding crop year:
    - i. On acreage qualifying as summerfallow; and
    - ii. Was not harvested; and
    - iii. Failed and was terminated on or before June 1, and any later plant growth was controlled by mechanical or chemical means.
  2. Cover Crop Exception: Acreage will qualify for the summerfallow practice in the current crop year if a cover crop was planted during the preceding crop year, provided the cover crop was:
    - i. Not hayed, grazed or otherwise harvested; and
    - ii. Terminated according to the NRCS Cover Crop Termination Guidelines and any later plant growth was controlled by mechanical or chemical means.

### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

### Premium

In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than March 15.

## Special Provisions 2026 and Succeeding Crop Years

Ücæ^kãmsæ • æ • ÅçED

County: Edwards (047)

- ## Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In lieu of the provisions in section 22(a) of the Basic Provisions that says "[h]owever, unless specifically required by policy provisions, you must not obtain any other crop insurance authorized under the Act on your share of the insured crop," you may obtain a Small Grains Crop Insurance policy and an Annual Forage policy on the same acreage that is planted with the intent of grazing the crop first and then later harvesting the crop for grain.

GENERAL STATEMENTS:

Úlf á 8a) Áqualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

For the purpose of this provision, the term "acceptable to us" means acceptable to the insurance company.

c. If the production of a crop is not acceptable to us, such production will not be adjusted for any quality deficiencies listed in Section C.

d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

### SECTION D - ZERO MARKET VALUE PRODUCTION

For the purpose of this provision, the term "acceptable to us" means acceptable to the insurance company.

1. For the purpose of this provision, the term "acceptable to us" means acceptable to the insurance company.

2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:

a. For the purpose of this provision, the term "acceptable to us" means acceptable to the insurance company.

b. For the purpose of this provision, the term "acceptable to us" means acceptable to the insurance company.

c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.

3. If the production of a crop is not acceptable to us, such production will not be adjusted for any quality deficiencies listed in Section C.

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-A Grain that does not meet the definition of %sold.
