General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.
Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.
Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines.
Insurance will not attach to any acreage on which canola, camelina, mustard, or rapeseed, were planted the preceding crop year.
A crop which was planted and then all plant growth was terminated by chemical or mechanical means prior to: April 15 for the fall planted types; or June 1 for the spring planted types, will not be considered planted for rotational purposes only.
Cultivars of Brassica Juncea meeting US Standards for Grain as canola, e.g. Juncea Canola are eligible for insurance under the Canola and Rapeseed Crop Provisions and are not insurable under the Mustard Crop Provisions.
Cultivars of Brassica carinata are eligible for insurance under the Canola and Rapeseed Crop Provisions and are not insurable under the Mustard Crop Provisions; however, Brassica carinata is only insurable by written agreement.

**Special Provisions**  
**2026 and Succeeding Crop Years**

Year: 2026	Commodity: Canola (0015)	Use: <del>Yield Protection</del> AIP D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Jerome (053)

~~Net production to count = Gross production - Allowable reductions to gross production~~

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

Production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under ~~the applicable Crop Provisions~~

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period ~~under the applicable Crop Provisions~~

For any production qualifying under section B or C (except for section C3) that is sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the ~~calendar date for the end of the insurance period~~

For production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in ~~accordance with the applicable Crop Provisions~~

- a. ~~Net production to count = Gross production - Allowable reductions to gross production~~
- b. Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- c. ~~Net production to count = Gross production - Allowable reductions to gross production~~

**1. OPTION TO DELAY CLAIM SETTLEMENT:**

- a. ~~U) If the insured elects to delay settlement of the claim for up to 60 days after the calendar date for the EOIP, the claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.~~
- b. ~~GA) If the insured elects to delay settlement of the claim for up to 60 days after the calendar date for the EOIP, the claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.~~
- c. At any time during this delay in settlement, you may request to settle your claim for any unsold production using the applicable DFs.
- d. ~~GA) If the insured elects to delay settlement of the claim for up to 60 days after the calendar date for the EOIP, the claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.~~

## Special Provisions 2026 and Succeeding Crop Years

Ùcæ^kMŒæ@ÁFÎD

County: Jerome (053)

- e. If the production is later sold, we will not recalculate or adjust your claim for indemnity.
- f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- g. This option will not apply to any production qualifying under section C3.

## Special Provisions 2026 and Succeeding Crop Years

Ùcæ^kMÎæ@ÁFÎD

County: Jerome (053)

## 6. ZERO MARKET VALUE

## 7. REDUCTION IN VALUE (RIV):

- a. Moisture content;
- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;
- e. Processing; or
- f. Any other costs associated with normal harvesting, handling, and marketing of your production.
  - i. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
  - ii. If the RIV can be decreased by conditioning the production, the RIV may be increased by the cost of conditioning provided the resulting RIV does not exceed the RIV before conditioning.
  - iv. The RIV and local market price\* are determined on the date such quality adjusted production is sold to a disinterested third party.

The sum of all DFs for production containing substances or conditions that are injurious to human or animal health is allowed, in addition to applicable DFs from sections A or B above, except as shown in C3 below.

Any potential loss due to substances or conditions identified by the Food and Drug Administration, other public health organizations of the United States, or a public health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the

## Special Provisions

2026 and Succeeding Crop Years

Year: 2026	Commodity: Canola (0015)	Use: <del>WMA</del> <del>AF</del> D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Jerome (053)

2. If a level of a substance or condition with a level less than the maximum allowable, adjust the production in the following manner.
- a. If on the date of final adjustment for the unit, the production was transported directly from the field to the buyer, or transported directly from the field and put into commercial storage without going into on farm storage, the DF will be:
    - i. All insurable quality deficiencies, and that value divided by the local market price.
    - ii. C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2
    - iii. Added to the applicable DFs included in sections A, or B2 above.
    - iv. Added to the applicable DFs included in sections A, or B2 above.
    - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500,
  - b. If the production was sold, or was sold to other than a disinterested third party:
    - i. Applicable DFs included in sections A or B2 above.
    - ii. Added to the applicable DFs included in sections A or B2 above.
    - iii. Added to the applicable DFs included in sections A or B3 above.

DFs for Aflatoxin:

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed, or when the edible portion of a crop is exposed to flood waters, a claim will not be payable for the production. On the date of final adjustment for the unit, the following will apply (if such production is Zero Market Value, see Section D):
- The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
    - The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
  - The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
    - The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
  - The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
    - The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
  - The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
    - The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or

# ÙÒÖVÜPÄÖÄ ZERO MARKET VALUE PRODUCTION

For production listed in sections A, B, or C that we determine has zero market value due to insured quality deficiencies:

- [illegible]

## Special Provisions 2026 and Succeeding Crop Years

Ùcæ^kMÎæ@ÁFÎD

County: Jerome (053)

[illegible]

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-As defined in the applicable Basic, Crop, or these Provisions. %Disinterested third party-As a person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-As Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer
*****	%Unsold-As Grain that does not meet the definition of %sold-As
