### General

In lieu of the stage percentage provisions in section 1 of the Onion Crop Provisions, Production guarantee (per acre), the second stage production guarantee will be 85 percent of the final stage production guarantee for all non-storage onions.

In accordance with section 3(b)(3) of the Onion Crop Provisions, the provision, Final Stage extends from the completion of topping and lifting or digging on the acreage....., means lifting or knifing the onions, hand clipping the tops and excessive roots, and placing the onions in a bag or other container recognized by the industry as an acceptable method for field drying onions.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

### Price

Contract price:

You may use a contract price to determine your insurance guarantee when a contract price code of ~~yes~~ exists on the Prices tab in the actuarial documents for the crop, type, and practice.

Contract price authority (i.e., rules governing the use of contract prices and the method to determine a contract price) will be found in one of the following three places, listed in priority order:

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Onions (0013)	Use NAWA 1* as CPD
Date: 6/4/2025	Plan: APH (90)	County: Long (183)

1. Special Provisions, separate from this statement, which authorizes the use of the Contract Price Addendum (CPA);
2. Crop Provisions; or
3. CPA.

When the contract price code is ~~yes~~ <sup>no</sup> on the Prices tab for the crop, type, and practice:

1. If the Crop Provisions or Special Provisions provide the contract price authority, your price will be determined in accordance with the Crop Provisions or Special Provisions. If neither the Crop Provisions or Special Provisions provide contract price authority, your price will be determined in accordance with the CPA; and
2. The Crop Provisions or Special Provisions may only provide contract price authority for specific types or practices. When this occurs, the CPA may be used to determine a contract price for other types or practices where contract price authority is not provided through the Crop Provisions or these Special Provisions.

### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Policy rotation requirements in section 9(a) of the Onion Crop Provisions do not apply to any acreage insured in this county.

Onions planted for processing intended use are not insurable unless specifically covered by written agreement.

### Quality

\*9 The applicable standards for onions in the following state will apply for this crop year: Georgia. All Non-Storage Types - U.S. No. 1 Grade based on the United States Standards for Grades of Bermuda-Granex-Grano onions.

The percent of damage referenced in section 14(d) of the Onion Crop Provisions will be 50 percent.
