T/P 3	Winter 091	Organic(Certified) Non-Irr. 713
T/P 4	Winter 091	Organic(Certified) Irr. 702
T/P 5	Winter 091	Organic(Transitional) Non-Irr. 714
T/P 6	Winter 091	Organic(Transitional) Irr. 712

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

In lieu of section 7 of the Small Grains Crop Provisions, the end of insurance period for winter-type acreage will be August 31 immediately following planting.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 100% FD
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Albemarle (003)

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this Quality Adjustment Statement, the following definitions apply:

Production to Count: The production to count is the gross production of the crop, less any allowable reductions, multiplied by the Quality Adjustment Factor (QAF). The QAF is determined by the following factors: (1) the percentage of the crop that is harvested, (2) the percentage of the crop that is stored, and (3) the percentage of the crop that is sold. The QAF is calculated as follows: $QAF = \frac{\text{Harvested} \times \text{Stored} \times \text{Sold}}{100}$. The QAF is rounded to the nearest hundredth.

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

Quality Adjustment Factor (QAF): The QAF is a factor that is used to adjust the production to count for quality. The QAF is determined by the following factors: (1) the percentage of the crop that is harvested, (2) the percentage of the crop that is stored, and (3) the percentage of the crop that is sold. The QAF is calculated as follows: $QAF = \frac{\text{Harvested} \times \text{Stored} \times \text{Sold}}{100}$. The QAF is rounded to the nearest hundredth.

Quality Adjustment Statement: The Quality Adjustment Statement is a statement that is used to adjust the production to count for quality. The Quality Adjustment Statement is determined by the following factors: (1) the percentage of the crop that is harvested, (2) the percentage of the crop that is stored, and (3) the percentage of the crop that is sold. The Quality Adjustment Statement is calculated as follows: $QAS = \frac{\text{Harvested} \times \text{Stored} \times \text{Sold}}{100}$. The QAS is rounded to the nearest hundredth.

Quality Adjustment Statement (QAS): The QAS is a statement that is used to adjust the production to count for quality. The QAS is determined by the following factors: (1) the percentage of the crop that is harvested, (2) the percentage of the crop that is stored, and (3) the percentage of the crop that is sold. The QAS is calculated as follows: $QAS = \frac{\text{Harvested} \times \text{Stored} \times \text{Sold}}{100}$. The QAS is rounded to the nearest hundredth.

Automatic 30 Day Extension: An automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

Special Provisions 2026 and Succeeding Crop Years

Ùæ^KXã* â ãÇ FD

- c. Unsold 60 days after the calendar date for the EOIP, fed, utilized in any other manner, or is sold to other than a disinterested third party, the DF will be the applicable DFs shown in the chart below added to the applicable DFs included in sections A or B3 above.

DFs for Vomitoxin:

Vomitoxin Range	DF
0.1 - 10.0 ppm	See Quality Adjustment Tab for Discount Factors
10.1 ppm & above	See C3 below

2. If a producer elects to delay settlement as specified in the General Statements above, and the producer has not sold the production to a disinterested third party, the producer shall adjust the production in the following manner:
 - a. If the producer has not sold the production to a disinterested third party, the producer shall adjust the production in the following manner:
 - i. If the producer has not sold the production to a disinterested third party, the producer shall adjust the production in the following manner:
 - all insurable quality deficiencies, and that value divided by the local market price.
 - ii. If the producer has not sold the production to a disinterested third party, the producer shall adjust the production in the following manner:
 - C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2 above.
 - iii. If the producer has not sold the production to a disinterested third party, the producer shall adjust the production in the following manner:
 - added to the applicable DFs included in sections A, or B2 above.
 - iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
 - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, added to the applicable DFs included in sections A or B2 above.
 - b. If the producer has not sold the production to a disinterested third party, the producer shall adjust the production in the following manner:
 - i. If the producer has not sold the production to a disinterested third party, the producer shall adjust the production in the following manner:
 - applicable DFs included in sections A or B2 above.
 - ii. If the producer has not sold the production to a disinterested third party, the producer shall adjust the production in the following manner:
 - to the applicable DFs included in sections A or B2 above.

- iii. If the applicable DFs included in sections A or B3 above.

DFs for Aflatoxin:

Aflatoxin Range	DF
0.1 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

A

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
 - a. If the level of Aflatoxin or Vomitoxin is less than 300 ppb or 10 ppm, respectively, the claim will be adjusted based on the level of Aflatoxin or Vomitoxin.
 - i. If the level of Aflatoxin or Vomitoxin is less than 300 ppb or 10 ppm, respectively, the claim will be adjusted based on the level of Aflatoxin or Vomitoxin.
 - ii. If the level of Aflatoxin or Vomitoxin is 300 ppb or 10 ppm, respectively, the claim will be adjusted based on the level of Aflatoxin or Vomitoxin.
 - b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:
 - i. If the level of Aflatoxin or Vomitoxin is less than 300 ppb or 10 ppm, respectively, the claim will be adjusted based on the level of Aflatoxin or Vomitoxin.
 - ii. .500 for production that was in on-farm storage and was later sold, was in on-farm storage and was transported to commercial storage and later sold, the claim will be adjusted based on the level of Aflatoxin or Vomitoxin.
 - c. If the level of Aflatoxin or Vomitoxin is 300 ppb or 10 ppm, respectively, the claim will be adjusted based on the level of Aflatoxin or Vomitoxin.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, the claim will be adjusted based on the level of Aflatoxin or Vomitoxin.
