#### General

Optional unit division is NOT available by section or section equivalent. Optional unit division is available based on Farm Serial Number (FSN) and any other method specified in the Basic Provisions or Crop Provisions except section or section equivalent. To be eligible for the available methods of optional unit division, you must meet all applicable requirements.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

### Quality

#### GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

**Production Qualifying for Quality Adjustment:** Production that is sold or otherwise disposed of within 60 days after the calendar date for the end of the insurance period (EOIP) and is not sold or otherwise disposed of after the calendar date for the end of the insurance period (EOIP) and is not sold or otherwise disposed of after the calendar date for the end of the insurance period (EOIP).

**Net Production:** Production that is sold or otherwise disposed of within 60 days after the calendar date for the end of the insurance period (EOIP) and is not sold or otherwise disposed of after the calendar date for the end of the insurance period (EOIP) and is not sold or otherwise disposed of after the calendar date for the end of the insurance period (EOIP).

**Qualifying for quality adjustment:** Production that is sold or otherwise disposed of within 60 days after the calendar date for the end of the insurance period (EOIP) and is not sold or otherwise disposed of after the calendar date for the end of the insurance period (EOIP) and is not sold or otherwise disposed of after the calendar date for the end of the insurance period (EOIP).

**Extension of time to harvest:** The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period (EOIP).

**Any production qualifying under section B or C (except for section C3) that is sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the end of the insurance period (EOIP) and is not sold or otherwise disposed of after the calendar date for the end of the insurance period (EOIP).**

**Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.**

**For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following definitions:**
