General

Optional unit division is NOT available by section or section equivalent. Optional unit division is available based on Farm Serial Number (FSN) and any other method specified in the Basic Provisions or Crop Provisions except section or section equivalent. To be eligible for the available methods of optional unit division, you must meet all applicable requirements.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use Year: 2026
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Jefferson Davis (065)

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

Production to Count: The total amount of production that is sold or otherwise disposed of, less any production that is lost, destroyed, or otherwise removed from the farm, and is used to determine the net production to count.

Net Production to Count: The total amount of production to count, less any production that is lost, destroyed, or otherwise removed from the farm, and is used to determine the net production to count.

Qualifying for Quality Adjustment: Production that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following provisions:

Extension of Time to Harvest: The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Production Qualifying under Section B or C: Any production qualifying under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the end of the insurance period, shall be adjusted under the following provisions:

Production Qualifying under Sections B or C: Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

Production Qualifying for Quality Adjustment: Production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following provisions:

Special Provisions 2026 and Succeeding Crop Years

DFs for Vomitoxin:

Vomitoxin Range	DF
0.1 to 10.0 ppm	See Quality Adjustment Tab for Discount Factors
10.1 ppm & above	See C3 below

2. If the level of a substance or condition is less than the maximum allowable, adjust the production in the following manner.
 - a. If the level of a substance or condition is less than the maximum allowable, the DF will be:
 - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of all insurable quality deficiencies, and that value divided by the local market price.
 - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2.
 - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2, added to the applicable DFs included in sections A or B2.
 - iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
 - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, added to the applicable DFs included in sections A or B2 above.
 - b. If the level of a substance or condition is less than the maximum allowable, the DF will be:
 - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
 - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
 - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B3 above.

DFs for Aflatoxin:

Aflatoxin Range	DF
0.0 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
 - a. If the level of Aflatoxin is less than 300 ppb, the level of Vomitoxin is less than 10 ppm, and the production is sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiencies listed in Section C.
 - b. If the level of Aflatoxin is 300 ppb or more, the level of Vomitoxin is 10 ppm or more, and the production is sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiencies listed in Section C.
 - c. If the level of Aflatoxin is 300 ppb or more, the level of Vomitoxin is 10 ppm or more, and the production is not sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiencies listed in Section C.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin is 300 ppb or more, the level of Vomitoxin is 10 ppm or more, and the production is not sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiencies listed in Section C.

1. If the level of Aflatoxin is 300 ppb or more, the level of Vomitoxin is 10 ppm or more, and the production is not sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiencies listed in Section C.
