### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

In accordance with the definition of "production reporting date" in the Basic Provisions, if you submit an application for insurance after the winter sales closing date or land is added after the production reporting date on which the spring type will be planted, the production reporting date will be the earlier of the acreage reporting date or 45 days after the spring sales closing date.

### Practice

\*4 Continuous Cropping . Any non-irrigated production practice that does not qualify as a summerfallow practice.

\*5 The current crop year:

- The acreage must not have been planted to a crop (excluding a cover crop, see exceptions below) during the preceding crop year; and
- Any plant growth, including weeds, volunteer crops, existing perennial vegetation (including acreage emerging from USDA programs (such as CRP) and/or new breaking acreage), must be terminated a full crop year before planting a crop, and
- Any additional plant re-growth must be terminated on or before June 1, and any later plant growth (e.g. weeds, volunteer crop) must be controlled by mechanical or chemical means.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use All or None
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Sheridan (161)

(b) The following are exceptions to these requirements:

1. Failed Crop Exception: Acreage will qualify as summerfallow the current crop year, if a crop (excluding a cover crop) was planted the preceding crop year:
  - i. On acreage qualifying as summerfallow; and
  - ii. Was not harvested; and
  - iii. Failed and was terminated on or before June 1, and any later plant growth was controlled by mechanical or chemical means.
2. Cover Crop Exception: Acreage will qualify for the summerfallow practice in the current crop year if a cover crop was planted during the preceding crop year, provided the cover crop was:
  - i. Not hayed, grazed or otherwise harvested; and
  - ii. Terminated according to the NRCS Cover Crop Termination Guidelines and any later plant growth was controlled by mechanical or chemical means.

### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

### Premium

- \*7 In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than March 15.

Any acreage in this county with a high risk area designation on the actuarial map will have a rate adjusted in accordance with the high risk area and map area rates table.

### Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Wheat (0011)

Use: 0000 FD

Date: 6/17/2025

Plan: Yield Protection (01)  
Revenue Protection (02)  
Revenue Prot with Harvest Price Exclusion (03)

County: Sheridan (161)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

In lieu of the provisions in section 22(a) of the Basic Provisions that says "[h]owever, unless specifically required by policy provisions, you must not obtain any other crop insurance authorized under the Act on your share of the insured crop," you may obtain a Small Grains Crop Insurance policy and an Annual Forage policy on the same acreage that is planted with the intent of grazing the crop first and then later harvesting the crop for grain.

### Quality

#### GENERAL STATEMENTS:

For the purpose of this section, the term "quality" means the quality of the crop as determined by the quality adjustment factors.

For the purpose of this section, the term "quality adjustment factors" means the factors that are used to determine the quality of the crop. The quality adjustment factors are the factors that are used to determine the quality of the crop. The quality adjustment factors are the factors that are used to determine the quality of the crop.

For the purpose of this section, the term "quality adjustment factors" means the factors that are used to determine the quality of the crop. **Special Provisions**  
**2026 and Succeeding Crop Years**

Year: 2026  
Date: 6/17/2025

Commodity: Wheat (0011)  
Plan: Yield Protection (01)  
Revenue Protection (02)  
Revenue Prot with Harvest Price Exclusion (03)

Unit: 1000 bushels  
County: Sheridan (161)

- a.  $\frac{Yield_{2026} - Yield_{2025}}{Yield_{2025}} \times \frac{Yield_{2025} - Yield_{2024}}{Yield_{2024}} \times \dots \times \frac{Yield_{2026} - Yield_{2021}}{Yield_{2021}}$
- b. Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- c.  $\frac{Yield_{2026} - Yield_{2025}}{Yield_{2025}} \times \frac{Yield_{2025} - Yield_{2024}}{Yield_{2024}} \times \dots \times \frac{Yield_{2026} - Yield_{2021}}{Yield_{2021}}$

À

**1. OPTION TO DELAY CLAIM SETTLEMENT**

- a. On the date of final inspection for the unit, if any of your unsold\*\*\*\* production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DF's for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b.  $\frac{Yield_{2026} - Yield_{2025}}{Yield_{2025}} \times \frac{Yield_{2025} - Yield_{2024}}{Yield_{2024}} \times \dots \times \frac{Yield_{2026} - Yield_{2021}}{Yield_{2021}}$
- c.  $\frac{Yield_{2026} - Yield_{2025}}{Yield_{2025}} \times \frac{Yield_{2025} - Yield_{2024}}{Yield_{2024}} \times \dots \times \frac{Yield_{2026} - Yield_{2021}}{Yield_{2021}}$
- d. For any production sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- e.  $\frac{Yield_{2026} - Yield_{2025}}{Yield_{2025}} \times \frac{Yield_{2025} - Yield_{2024}}{Yield_{2024}} \times \dots \times \frac{Yield_{2026} - Yield_{2021}}{Yield_{2021}}$
- f.  $\frac{Yield_{2026} - Yield_{2025}}{Yield_{2025}} \times \frac{Yield_{2025} - Yield_{2024}}{Yield_{2024}} \times \dots \times \frac{Yield_{2026} - Yield_{2021}}{Yield_{2021}}$
- g.  $\frac{Yield_{2026} - Yield_{2025}}{Yield_{2025}} \times \frac{Yield_{2025} - Yield_{2024}}{Yield_{2024}} \times \dots \times \frac{Yield_{2026} - Yield_{2021}}{Yield_{2021}}$

À

**2. SECTION 14(e) OF THE BASIC PROVISIONS**

U)  $\frac{Yield_{2026} - Yield_{2025}}{Yield_{2025}} \times \frac{Yield_{2025} - Yield_{2024}}{Yield_{2024}} \times \dots \times \frac{Yield_{2026} - Yield_{2021}}{Yield_{2021}}$

statement does not supersede the provisions contained in section 14 (e) in the Basic Provisions.

**3. EXTENSION OF TIME TO HARVEST**

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period (EOIP).

## Special Provisions 2026 and Succeeding Crop Years

- ~ U.S. Sample Grade for Total Defects - 20.01% and above

Only one DF for grade can be applied.

TEST WEIGHT DISCOUNT:

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: HRW, SRW, HWW, and DUM
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Sheridan (161)

For all Spring and White Club wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 50 lbs.; U.S. Sample Grade . 45 lbs. and below):

Test Weight Pounds	DF
50 and above	None
49.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Hard Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

Test Weight Pounds	DF
51 and above	None
50.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Soft Red Winter wheat will be discounted for excessive Defects as follows:

SRW, HRW, and HWW classes of wheat will be discounted for excessive Defects as follows:

Defects %	DF
15 and below	None
15.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

SWW, HRS, and DUM classes of wheat will be discounted for excessive Defects as follows:

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026  
Date: 6/17/2025

Commodity: Wheat (0011)  
Plan: Yield Protection (01)  
Revenue Protection (02)  
Revenue Prot with Harvest Price Exclusion (03)

Use NRP as a DF  
County: Sheridan (161)

Defects %	DF
10 and below	None
10.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

For all classes of wheat, if the producer elects to use the NRP as a DF, the producer must also elect to use the NRP as a DF for the Falling Number Discount Table.

### SPROUT DAMAGE DISCOUNT FOR ALL CLASSES

When the producer elects to use the NRP as a DF, the producer must also elect to use the NRP as a DF for the Falling Number Discount Table or the Sprout Damage Discount Table below, the production is not eligible for any additional discount factor in the Falling Number Discount Tables below.

Sprout Damage Percent	DF
10 and below	None
10.01 - 15.0	See Quality Adjustment Tab for Discount Factors
Above 15.0	See Section B

### FALLING NUMBER DISCOUNTS:

When the producer elects to use the NRP as a DF, the producer must also elect to use the NRP as a DF for the Falling Number Discount Table, the production is not eligible for any further sprout damage discount in the Defects Discount Table or the Sprout Damage Discount Table above.

In addition to the quality deficiencies allowed in section 11 (d) of the Small Grains Crop Provisions, the following quality factors for Falling Number will apply:

All Other Classes of wheat will be discounted for falling number, regardless of U.S. grade designation as follows:

Falling Number Range	DF
299-200	See Quality Adjustment Tab for Discount Factors
Below 200	See Section B

300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
  - a. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claimant will not be allowed to submit a claim for indemnity.
    - i. If the claimant is a producer, the claimant will not be allowed to submit a claim for indemnity if the claimant is a disinterested third party; or
    - ii. If the claimant is a producer, the claimant will not be allowed to submit a claim for indemnity if the claimant is a producer who is not a member of the producer's cooperative or who is not a member of the producer's association.
  - b. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claimant will not be allowed to submit a claim for indemnity.
    - i. If the claimant is a producer, the claimant will not be allowed to submit a claim for indemnity if the claimant is a producer who is not a member of the producer's cooperative or who is not a member of the producer's association.
    - ii. If the claimant is a producer, the claimant will not be allowed to submit a claim for indemnity if the claimant is a producer who is not a member of the producer's cooperative or who is not a member of the producer's association.
  - c. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claimant will not be allowed to submit a claim for indemnity.
  - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

### SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claimant will not be allowed to submit a claim for indemnity.

1. If the claimant is a producer, the claimant will not be allowed to submit a claim for indemnity if the claimant is a producer who is not a member of the producer's cooperative or who is not a member of the producer's association.

## Special Provisions 2026 and Succeeding Crop Years

Ùæ^kmp^à|æ\æCFD

County: Sheridan (161)

- [illegible]

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-A Grain that does not meet the definition of %sold.
