General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Frost Protection Premium Discount Requirements: To qualify for frost protection discounts specified on the actuarial documents, the insured must control and maintain an Irrigation system customary for frost protection in the area and capable of applying at least two thousand (2,000) gallons of water per hour per acre directly to the trunks and lower limbs of the trees within the protective area (the area within three (3) feet of the trunk at a height of three and one-half (3.5) feet).
