General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not

4. DELAY IN MEASUREMENT OF FARM STORED PRODUCTION

quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for a claim for indemnity. If a claim for indemnity is made for a crop that is stored for more than 60 days after the EOIP, the claimant must provide evidence that the crop was stored for a purpose other than for sale or use in the production of a claim for indemnity. If a claim for indemnity is made for a crop that is stored for more than 60 days after the EOIP, the claimant must provide evidence that the crop was stored for a purpose other than for sale or use in the production of a claim for indemnity.

1. The claimant must provide evidence that the crop was stored for a purpose other than for sale or use in the production of a claim for indemnity.

2. The claimant must provide evidence that the crop was stored for a purpose other than for sale or use in the production of a claim for indemnity.

6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be eligible for a claim for indemnity, except for production fed or used in any other manner.

7. REDUCTION IN VALUE (RIV):

1. The claimant must provide evidence that the crop was stored for a purpose other than for sale or use in the production of a claim for indemnity.
