T/P 3	Winter 011	Organic(Certified) Non-Irr. 713
T/P 4	Winter 011	Organic(Certified) Irr. 702
T/P 5	Winter 011	Organic(Transitional) Non-Irr. 714
T/P 6	Winter 011	Organic(Transitional) Irr. 712

#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

In lieu of section 7 of the Small Grains Crop Provisions, the end of insurance period for winter-type acreage will be August 31 immediately following planting.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use of AIP: AIP
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Erie (029)

### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

### Quality

#### GENERAL STATEMENTS:

For the purpose of this section, the term "quality" means the quality of the crop as determined by the quality adjustment factors.

For the purpose of this section, the term "quality adjustment factors" means the factors that are used to determine the quality of the crop. The factors are listed in the following table:

Factor	Description
1. Moisture	The moisture content of the crop at the time of harvest.
2. Temperature	The temperature of the crop at the time of harvest.
3. Purity	The percentage of the crop that is pure.
4. Foreign Matter	The percentage of foreign matter in the crop.
5. Damage	The percentage of damage to the crop.

For the purpose of this section, the term "net production to count" means the production of the crop after the quality adjustment factors have been applied. The net production to count is determined by the following formula:

$$\text{Net Production to Count} = \text{Production} \times \text{Quality Adjustment Factor}$$

For the purpose of this section, the term "qualifying for quality adjustment" means the crop must meet the following criteria:

- The crop must be harvested on or before the date specified in the quality adjustment statement.
- The crop must be stored in a facility that is approved by the insurance company.
- The crop must be stored in a facility that is located within the county of production.

For the purpose of this section, the term "extension of time to harvest" means the period of time that is granted to the producer to harvest the crop. The extension of time to harvest is determined by the following criteria:

- The extension of time to harvest must be granted by the insurance company.
- The extension of time to harvest must be granted for a period of time that is specified in the quality adjustment statement.
- The extension of time to harvest must be granted for a period of time that is not longer than 60 days after the calendar date for the end of the insurance period.

For the purpose of this section, the term "sold" means the sale of the crop to a third party. The sale of the crop must be completed by the date specified in the quality adjustment statement.

For the purpose of this section, the term "unsold" means the crop that has not been sold to a third party. The unsold crop must be stored in a facility that is approved by the insurance company.

For the purpose of this section, the term "substances or conditions that are injurious to human or animal health" means the substances or conditions that are listed in the following table:

Substance or Condition	Description
1. Pesticides	The use of pesticides on the crop.
2. Fertilizers	The use of fertilizers on the crop.
3. Other	Other substances or conditions that are injurious to human or animal health.

## Special Provisions 2026 and Succeeding Crop Years

County: Erie (029)

- Á

Á

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period

Special Provisions
2026 and Succeeding Crop Years

Year: 2026 Commodity: Wheat (0011)
Date: 6/17/2025 Plan: Yield Protection (01)

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Wheat (0011)

U.S. Grade No. 5 for Kernel Damage

Date: 6/17/2025

Plan: Yield Protection (01)  
Revenue Protection (02)  
Revenue Prot with Harvest Price Exclusion (03)

County: Erie (029)

- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;
- e. Processing; or
- f. Any other costs associated with normal harvesting, handling, and marketing of your production.
  - i. RIVs cannot be used in combination with chart DFs.
  - ii.  $\frac{\text{Local Market RIV} - \text{Local Market RIV}}{\text{Local Market RIV} - \text{Local Market RIV}} \times \text{Local Market RIV}$  production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
  - iii.  $\frac{\text{Local Market RIV} - \text{Local Market RIV}}{\text{Local Market RIV} - \text{Local Market RIV}} \times \text{Local Market RIV}$  exceed the RIV before conditioning.
  - iv.  $\frac{\text{Local Market RIV} - \text{Local Market RIV}}{\text{Local Market RIV} - \text{Local Market RIV}} \times \text{Local Market RIV}$

### SECTION A - DISCOUNT FACTOR CHARTS

U.S. Grade No. 5 for Kernel Damage - 10.01% to 15.0%  
U.S. Grade No. 5 for Total Defects - 12.01% to 20.0%  
U.S. Sample Grade for Kernel Damage - 15.01% and above  
U.S. Sample Grade for Total Defects - 20.01% and above

### GRADE DISCOUNT:

U.S. Grade No. 5 for Kernel Damage - 10.01% to 15.0%  
U.S. Grade No. 5 for Total Defects - 12.01% to 20.0%  
U.S. Sample Grade for Kernel Damage - 15.01% and above  
U.S. Sample Grade for Total Defects - 20.01% and above

- U.S. Grade No. 5 for Kernel Damage - 10.01% to 15.0%
- U.S. Grade No. 5 for Total Defects - 12.01% to 20.0%
- U.S. Sample Grade for Kernel Damage - 15.01% and above
- U.S. Sample Grade for Total Defects - 20.01% and above

Only one DF for grade can be applied.

## Special Provisions

### 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: HRW, SRW, HWW, D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Erie (029)

#### TEST WEIGHT DISCOUNT:

For all Spring and White Club wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 50 lbs.; U.S. Sample Grade . 45 lbs. and below):

Test Weight Pounds	DF
50 and above	None
49.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Hard Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

Test Weight Pounds	DF
51 and above	None
50.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Soft Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

For all Soft Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

SRW, HRW, and HWW classes of wheat will be discounted for excessive Defects as follows:

Defects %	DF
15 and below	None
15.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

SWW, HRS, and DUM classes of wheat will be discounted for excessive Defects as follows:

County: Erie (029)

Defects %	DF
10 and below	None
10.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

For all classes of wheat, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below.

### SPROUT DAMAGE DISCOUNT FOR ALL CLASSES

For all classes of wheat, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below.

Sprout Damage Percent	DF
10 and below	None
10.01 - 15.0	See Quality Adjustment Tab for Discount Factors
Above 15.0	See Section B

### FALLING NUMBER DISCOUNTS:

For all classes of wheat, the production is not eligible for any further sprout damage discount in the Defects Discount Table or the Sprout Damage Discount Table above.

In addition to the quality deficiencies allowed in section 11 (d) of the Small Grains Crop Provisions, the following quality factors for Falling Number will apply:

All Other Classes of wheat will be discounted for falling number, regardless of U.S. grade designation as follows:

Falling Number Range	DF
299-200	See Quality Adjustment Tab for Discount Factors
Below 200	See Section B

DFs for Aflatoxin:

Aflatoxin Range	DF
0.0 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
  - a. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
    - i. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
    - ii. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
  - b. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
    - i. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
    - ii. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
  - c. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
  - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

### SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.

1. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.

## Special Provisions

### 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 000, A[ ] C1 D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Erie (029)

2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
  - a.  $\frac{\text{Local Market Price} - \text{Local Market Price}}{\text{Local Market Price} - \text{Local Market Price}}$  of the pre-established DFs.
  - b.  $\frac{\text{Local Market Price} - \text{Local Market Price}}{\text{Local Market Price} - \text{Local Market Price}}$
  - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3.  $\frac{\text{Local Market Price} - \text{Local Market Price}}{\text{Local Market Price} - \text{Local Market Price}}$  of the pre-established DFs. An automatic 30 day extension of time will be allowed for you to submit your claim for indemnity.

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-As a person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-Grain that does not meet the definition of %Sold.
