T/P 6	Fall Oleic Canola 285 *9	Organic(Transitional) Irr. 712

#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

For insured crop acreage planted during the late planting period, the production guarantee for each acre will be reduced for each day planted after the final planting date by: 3% for the 1st through the 5th day.

## Special Provisions 2026 and Succeeding Crop Years

County: Noble (103)

## Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Insurance will not attach to any acreage on which canola, camelina, crambe, chickpeas, dry beans, mustard, rapeseed, or sunflowers were planted in the previous crop year. A crop which was planted and then all plant growth is terminated by chemical or mechanical means prior to the acreage reporting date, will not be considered planted for rotational purposes ONLY. The insured is responsible to provide proof of insurability.

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

\*9 Fall High Erucic Rapeseed is uninsurable unless by written agreement. Contact your crop insurance agent to determine eligibility requirements.

Cultivars of *Brassica carinata* are eligible for insurance under the Canola and Rapeseed Crop Provisions and are not insurable under the Mustard Crop Provisions; however, *Brassica carinata* is only insurable by written agreement.

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

Production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A,

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Canola (0015)	Underlying Contract: 2026
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Noble (103)

B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

For any production qualifying under section B or C (except for section C3) that is sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the

For production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in

- a. Underlying Contract: 2026
- b. Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- c. Underlying Contract: 2026

### 1. OPTION TO DELAY CLAIM SETTLEMENT:

- a. Underlying Contract: 2026
- b. Underlying Contract: 2026
- c. At any time during this delay in settlement, you may request to settle your claim for any unsold production using the applicable DFs.
- d. Underlying Contract: 2026
- e. If the production is later sold, we will not recalculate or adjust your claim for indemnity.
- f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- g. This option will not apply to any production qualifying under section C3.

Underlying Contract: 2026

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026  
Date: 6/17/2025

Commodity: Canola (0015)  
Plan: Yield Protection (01)  
Revenue Protection (02)  
Revenue Prot with Harvest Price Exclusion (03)

Unit: 1000 bushels  
County: Noble (103)

On the date of final adjustment for the unit, the following will apply (if such production is Zero Market Value, see Section D):

- a.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$ 
  - i. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
  - ii.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$
- b.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$  will be:
  - i. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
  - ii.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$
- c.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$ 
  - i. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
  - ii.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$
- d. If production qualifying under Section C3 remains unsold, or is not destroyed more than 365 days after the calendar date for the end of insurance period,  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$

### UNITED STATES ZERO MARKET VALUE PRODUCTION

For production listed in sections A, B, or C that we determine has zero market value due to insured quality deficiencies:

1.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$
2.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$  and will be adjusted as follows:
  - a. For production in Section A. The pre-established DFs.
  - b.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$
  - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$

## Special Provisions

### 2026 and Succeeding Crop Years

Year: 2026	Commodity: Canola (0015)	Use: 100% { 20% 80%
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Noble (103)

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer
*****	%Unsold-A Grain that does not meet the definition of %Sold.
