T/P 6	Winter 011	Organic(Transitional) Irr. 712

#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

#### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

**Special Provisions**  
**2026 and Succeeding Crop Years**

Year: 2026	Commodity: Wheat (0011)	Use: 100%
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Stanly (167)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

**Quality**

**GENERAL STATEMENTS:**

For the purpose of this section, the following definitions apply:

For the purpose of this section, the following definitions apply: "Production to count" means the production of the crop that is sold or otherwise disposed of for consumption as human food or feed, or for use in the production of human food or feed, and is not sold or otherwise disposed of for use in the production of human food or feed. The following factors are considered in determining production to count:

For the purpose of this section, the following definitions apply: "Net production to count" means the production of the crop that is sold or otherwise disposed of for consumption as human food or feed, or for use in the production of human food or feed, and is not sold or otherwise disposed of for use in the production of human food or feed, and is not sold or otherwise disposed of for use in the production of human food or feed.

For the purpose of this section, the following definitions apply: "Qualifying for quality adjustment" means the production of the crop that is sold or otherwise disposed of for consumption as human food or feed, or for use in the production of human food or feed, and is not sold or otherwise disposed of for use in the production of human food or feed.

For the purpose of this section, the following definitions apply: "The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

For the purpose of this section, the following definitions apply: "Any production qualifying under section B or C (except for section C3) that is sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the

For the purpose of this section, the following definitions apply: "Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For the purpose of this section, the following definitions apply: "DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in

- a. For the purpose of this section, the following definitions apply: "DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in
- b. Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- c. For the purpose of this section, the following definitions apply: "DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in

## Special Provisions

2026 and Succeeding Crop Years

Year: 2026

Commodity: Wheat (0011)

U.S. Farm Income Stabilization Act of 2014

Date: 6/17/2025

Plan: Yield Protection (01)

County: Stanly (167)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.

- a. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
- i. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
- ii. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
- b. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
- i. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
- ii. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
- c. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
- d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

### SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.

1. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
  - a. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
  - b. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
  - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. If the level of loss is less than the level of loss allowed for the crop, the claim will be adjusted for any quality deficiencies listed in Section C.
