General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Premium

In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than March 15.

Special Provisions

2026 and Succeeding Crop Years

| | | |
|-----------------|----------------------------------------------------------------------------------------------------------|-----------------------|
| Year: 2026 | Commodity: Wheat (0011) | Upland Soybean A/D |
| Date: 6/17/2025 | Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03) | County: Roberts (393) |

Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

In lieu of the provisions in section 22(a) of the Basic Provisions that says "[h]owever, unless specifically required by policy provisions, you must not obtain any other crop insurance authorized under the Act on your share of the insured crop," you may obtain a Small Grains Crop Insurance policy and an Annual Forage policy on the same acreage that is planted with the intent of grazing the crop first and then later harvesting the crop for grain.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the term "quality" means the quality of the crop as determined by the quality adjustment factors.

When the quality adjustment factors are considered in determining production to count, the quality adjustment factors shall be applied to the production to count as follows: (1) if the quality adjustment factor is greater than zero, the production to count shall be increased by the quality adjustment factor; (2) if the quality adjustment factor is less than zero, the production to count shall be decreased by the quality adjustment factor; and (3) if the quality adjustment factor is zero, the production to count shall remain the same.

When the quality adjustment factor is greater than zero, the production to count shall be increased by the quality adjustment factor. When the quality adjustment factor is less than zero, the production to count shall be decreased by the quality adjustment factor. When the quality adjustment factor is zero, the production to count shall remain the same.

Qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the quality adjustment factors.

The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A,

Special Provisions 2026 and Succeeding Crop Years

| | | |
|-----------------|----------------------------------------------------------------------------------------------------------|-----------------------|
| Year: 2026 | Commodity: Wheat (0011) | Unit: 1000 bushels |
| Date: 6/17/2025 | Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03) | County: Roberts (393) |

B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Any production qualifying under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.

Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the applicable DFs.

- a. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- c. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

A

1. OPTION TO DELAY CLAIM SETTLEMENT

- a. On the date of final inspection for the unit, if any of your unsold**** production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DF's for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- c. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- d. For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- e. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- f. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- g. For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.

County: Roberts (393)

2. SECTION 14(e) OF THE BASIC PROVISIONS

3. EXTENSION OF TIME TO HARVEST

[illegible]

If you elect to delay measurement of farm stored production as provided in the Basic Provisions, all samples of farm stored production used to determine insurable quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

0c&[] o&e&|| , ^a& A&æ| æ @A- /æ&|| , E&a&S} • æ^|æ& } A& A&æ^| A^| j&A|| [a^ &c& } A& A&a&æ o& o& æ \ o& e&|| , ^a& } | ^@ } A& @^| A& A& A& ^|^| A& A&æ æ \ o& æ a&A^| ^| A^| A& @& | ^• A& a&A&ç^| ^| A&æ æ ^ A& S^ a&a& A&^ &c& } • OFEFO& EO&æEO&H&æ& a&O&H&æ^| , E&O&a&S} • æ^|æ& } A& A& [o&|| , ^a& A& ! 6. ZERO MARKET VALUE

Special Provisions 2026 and Succeeding Crop Years

| | | |
|-----------------|----------------------------------------------------------------------------------------------------------|-----------------------|
| Year: 2026 | Commodity: Wheat (0011) | Unit: 1000 bushels |
| Date: 6/17/2025 | Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03) | County: Roberts (393) |

On the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be included in the calculation of the RIV, except for production fed or used in any other manner.

7. REDUCTION IN VALUE (RIV):

RIV is calculated as follows:

- a. Moisture content;
- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;
- e. Processing; or
- f. Any other costs associated with normal harvesting, handling, and marketing of your production.
 - i. RIVs cannot be used in combination with chart DFs.
 - ii. RIVs may be used to transport production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
 - iii. RIVs may be used to transport production to the distant market, provided the resulting RIV does not exceed the RIV before conditioning.
 - iv. RIVs may be used to transport production to the distant market, provided the resulting RIV does not exceed the RIV before conditioning.

SECTION A - DISCOUNT FACTOR CHARTS

Use the following chart to determine the discount factor for your production. The chart is based on the following assumptions:

1. The discount factor is based on the following assumptions:

GRADE DISCOUNT:

Use the following chart to determine the grade discount for your production.

Special Provisions 2026 and Succeeding Crop Years

SRW, HRW, and HWW classes of wheat will be discounted for excessive Defects as follows:

Special Provisions 2026 and Succeeding Crop Years

| | | |
|-----------------|----------------------------------------------------------------------------------------------------------|-----------------------|
| Year: 2026 | Commodity: Wheat (0011) | Use: 1000/1000 D |
| Date: 6/17/2025 | Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03) | County: Roberts (393) |

| | |
|--------------|-------------------------------------------------|
| Defects % | DF |
| 15 and below | None |
| 15.01-35 | See Quality Adjustment Tab for Discount Factors |
| Above 35 | See section B |

SWW, HRS, and DUM classes of wheat will be discounted for excessive Defects as follows:

| | |
|--------------|-------------------------------------------------|
| Defects % | DF |
| 10 and below | None |
| 10.01-35 | See Quality Adjustment Tab for Discount Factors |
| Above 35 | See section B |

For all wheat classes, if the average defects percentage is 10% or more, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below.

SPROUT DAMAGE DISCOUNT FOR ALL CLASSES

For all wheat classes, if the average sprout damage percentage is 10% or more, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below.

| | |
|-----------------------|-------------------------------------------------|
| Sprout Damage Percent | DF |
| 10 and below | None |
| 10.01 - 15.0 | See Quality Adjustment Tab for Discount Factors |
| Above 15.0 | See Section B |

FALLING NUMBER DISCOUNTS:

For all wheat classes, if the average falling number is 30 or less, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table above.

In addition to the quality deficiencies allowed in section 11 (d) of the Small Grains Crop Provisions, the following quality factors for Falling Number will apply:

Special Provisions 2026 and Succeeding Crop Years
