Table with 3 columns: TP, Type, Practice. Rows include T/P 09, T/P 13, T/P 17, and T/P 21 with corresponding crop types and organic practices.

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.
Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.
Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Practice

- *4 U { { ^-a[[, AqDZ, [[a~ &q } A, a&A^A q^aA Aq[[, A[qA [a c ^A^c^A A q &^a^A^A q^a * A&^a^Aq[[, A[A^A^ A[[] A^a&A[A^aA A[A&A^A[. the current crop year:
1. The acreage must not have been planted to a crop (excluding a cover crop, see exceptions below) during the preceding crop year; and
2. Any plant growth, including weeds, volunteer crops, existing perennial vegetation (including acreage emerging from USDA programs (such as CRP) and/or } ^, A[^a q * A&^a^A^A ~ • a^A^ A{ q a^A^A^ A[[] A^aA^ A^A[a q * A&[[] Aq a
3. Any additional plant re-growth must be terminated on or before June 1, and any later plant growth (e.g. weeds, volunteer crop) must be controlled by mechanical or chemical means.
(b) The following are exceptions to these requirements:
1. Failed Crop Exception: Acreage will qualify as summerfallow the current crop year, if a crop (excluding a cover crop) was planted the preceding crop year:
i. On acreage qualifying as summerfallow; and
ii. Was not harvested; and
iii. Failed and was terminated on or before June 1, and any later plant growth was controlled by mechanical or chemical means.

Special Provisions

2026 and Succeeding Crop Years

| | | |
|-----------------|--|----------------------|
| Year: 2026 | Commodity: Canola (0015) | Use: 1000 |
| Date: 6/17/2025 | Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03) | County: Morrow (049) |

2. Cover Crop Exception: Acreage will qualify for the summerfallow practice in the current crop year if a cover crop was planted during the preceding crop year, provided the cover crop was:
 - i. Not hayed, grazed, cut for silage, haylage, or baleage or harvested for grain seed; and
 - ii. Terminated according to the NRCS Cover Crop Termination Guidelines and any later plant growth was controlled by mechanical or chemical means.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Insurance will not attach to any acreage on which canola, camelina, mustard, or rapeseed, were planted the preceding crop year. A crop which was planted and then all plant growth was terminated by chemical or mechanical means prior to: April 15 for the fall planted types; or June 1 for the spring planted types, will not be considered planted for rotational purposes only. The insured is responsible to provide proof of insurability.

Cultivars of Brassica Juncea meeting US Standards for Grain as canola, e.g. Juncea Canola are eligible for insurance under the Canola and Rapeseed Crop Provisions and are not insurable under the Mustard Crop Provisions.

Cultivars of Brassica carinata are eligible for insurance under the Canola and Rapeseed Crop Provisions and are not insurable under the Mustard Crop Provisions; however, Brassica carinata is only insurable by written agreement.

*9 Insurance shall not attach or be considered to have attached without a written agreement to a planted non-irrigated crop on acreage from which, in the same calendar year:

- 1) A perennial hay crop was harvested; or
- 2) A crop (other than a cover crop) reached the headed or budded stage prior to termination, regardless of the percentage of plants that reached the headed or budded stage;

Termination means growth has ended. To qualify for a written agreement, you must provide a minimum of the most recent three years of your double cropping actual production history for the crop in the county. A cover crop is one that meets the criteria outlined in the Insurance Availability section of these Special Provisions.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026
Date: 6/17/2025

Commodity: Canola (0015)
Plan: Yield Protection (01)
Revenue Protection (02)
Revenue Prot with Harvest Price Exclusion (03)

Underwritten by: FD
County: Morrow (049)

For any production qualifying under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

Production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following provisions:

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

For any production qualifying under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following provisions:

- Underwritten by: FD
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- Underwritten by: FD

1. OPTION TO DELAY CLAIM SETTLEMENT:

- Underwritten by: FD
- At any time during this delay in settlement, you may request to settle your claim for any unsold production using the applicable DFs.

Special Provisions 2026 and Succeeding Crop Years

| | | |
|-----------------|--|----------------------|
| Year: 2026 | Commodity: Canola (0015) | Use: 10001*[] FD |
| Date: 6/17/2025 | Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03) | County: Morrow (049) |

- d. If the production is later sold, we will not recalculate or adjust your claim for indemnity.
- e. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- f. This option will not apply to any production qualifying under section C3.

ONLY WHEN IT HAS BEEN DETERMINED THAT THE PRODUCTION QUALIFIES FOR QUALITY ADJUSTMENT WILL THE PROVISIONS IN THIS QUALITY ADJUSTMENT STATEMENT APPLY, OTHERWISE THIS SP STATEMENT DOES NOT SUPERSEDE THE PROVISIONS CONTAINED IN SECTION 14(E) IN THE BASIC PROVISIONS.

Only when it has been determined that the production qualifies for quality adjustment will the provisions in this Quality Adjustment Statement apply, otherwise this SP statement does not supersede the provisions contained in section 14(e) in the Basic Provisions.

UNLESS THE AIP GRANTS AN EXTENSION OF TIME TO HARVEST AS SPECIFIED BELOW, THE SAMPLES OF PRODUCTION USED TO DETERMINE INSURABLE QUALITY DEFICIENCIES UNDER SECTIONS A, B AND C MUST BE OBTAINED IN ACCORDANCE WITH THIS QUALITY ADJUSTMENT STATEMENT, BUT NOT LATER THAN 60 DAYS AFTER THE CALENDAR DATE FOR THE END OF INSURANCE PERIOD (EOIP).

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

If we determine you are prevented from harvesting by the calendar date for the EOIP due to an insurable cause of damage that occurred during the insurance period and we allow an extension of time to harvest, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP). If your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A will apply. If the production is later sold, we will not recalculate or adjust your claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest. If the production is later sold, we will not recalculate or adjust your claim for indemnity.

IF WE DETERMINE YOU ARE PREVENTED FROM HARVESTING BY THE CALENDAR DATE FOR THE EOIP DUE TO AN INSURABLE CAUSE OF DAMAGE THAT OCCURRED DURING THE INSURANCE PERIOD AND WE ALLOW AN EXTENSION OF TIME TO HARVEST, THE TIME TO DETERMINE INSURABLE QUALITY DEFICIENCIES WILL ALSO BE EXTENDED TO 60 DAYS AFTER THE EOIP. ALL SAMPLES FOR QA MUST BE OBTAINED IN ACCORDANCE WITH THIS QUALITY ADJUSTMENT STATEMENT, BUT NOT LATER THAN 60 DAYS AFTER THE CALENDAR DATE FOR THE END OF INSURANCE PERIOD (EOIP).

If your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A will apply. If the production is later sold, we will not recalculate or adjust your claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest. If the production is later sold, we will not recalculate or adjust your claim for indemnity.

IF WE DETERMINE YOU ARE PREVENTED FROM HARVESTING BY THE CALENDAR DATE FOR THE EOIP DUE TO AN INSURABLE CAUSE OF DAMAGE THAT OCCURRED DURING THE INSURANCE PERIOD AND WE ALLOW AN EXTENSION OF TIME TO HARVEST, THE TIME TO DETERMINE INSURABLE QUALITY DEFICIENCIES WILL ALSO BE EXTENDED TO 60 DAYS AFTER THE EOIP. ALL SAMPLES FOR QA MUST BE OBTAINED IN ACCORDANCE WITH THIS QUALITY ADJUSTMENT STATEMENT, BUT NOT LATER THAN 60 DAYS AFTER THE CALENDAR DATE FOR THE END OF INSURANCE PERIOD (EOIP).

Special Provisions 2026 and Succeeding Crop Years

| | | |
|-----------------|--|----------------------|
| Year: 2026 | Commodity: Canola (0015) | Unit: MU/acre |
| Date: 6/17/2025 | Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03) | County: Morrow (049) |

When the production is sold to other than a disinterested third party, fed, utilized in any other manner, or when a pre-established DF is applicable.

6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be eligible for revenue protection, except for production fed or used in any other manner.

7. REDUCTION IN VALUE (RIV):

The RIV is the difference between the local market price and the price received for the production.

- a. Moisture content;
- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;
- e. Processing; or
- f. Any other costs associated with normal harvesting, handling, and marketing of your production.
 - i. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
 - ii. If the RIV can be decreased by conditioning the production, the RIV may be increased by the cost of conditioning provided the resulting RIV does not exceed the RIV before conditioning.
 - iii. The RIV and local market price* are determined on the date such quality adjusted production is sold to a disinterested third party.

SECTION A - DISCOUNT FACTOR CHARTS

The discount factor is the percentage of the local market price that the production is sold for. The discount factor is determined by the quality of the production and the market conditions.

The sum of all DFs for production containing substances or conditions that are injurious to human or animal health is allowed, in addition to applicable DFs from sections A or B above, except as shown in C3 below.

Any potential loss due to substances or conditions identified by the Food and Drug Administration, other public health organizations of the United States, or a public health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the

A

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed, or when the edible portion of a crop is exposed to flood waters, a claim will not be paid for the production. On the date of final adjustment for the unit, the following will apply (if such production is Zero Market Value, see Section D):
 - a. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - ii. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - b. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - ii. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - c. If production qualifying under Section C3 remains unsold, or is not destroyed more than 365 days after the calendar date for the end of insurance period, the production will be considered zero market value.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed more than 365 days after the calendar date for the end of insurance period, the production will be considered zero market value.

ZERO MARKET VALUE PRODUCTION

For production listed in sections A, B, or C that we determine has zero market value due to insured quality deficiencies:

1. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
