General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

The statement does not supersede the provisions contained in section 14(e) in the Basic Provisions.

3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

4. DELAY IN MEASUREMENT OF FARM STORED PRODUCTION

Quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment. If a producer determines that quality deficiencies exist, they must be reported to the local FASIS office within 60 days of the EOIP. If a producer reports quality deficiencies, the local FASIS office will conduct an inspection. If the inspection confirms the quality deficiencies, the producer will be eligible for payment based on the quality of the production. If the inspection does not confirm the quality deficiencies, the producer will be eligible for payment based on the quality of the production at the time of the inspection. If a producer reports quality deficiencies, the local FASIS office will conduct an inspection. If the inspection confirms the quality deficiencies, the producer will be eligible for payment based on the quality of the production. If the inspection does not confirm the quality deficiencies, the producer will be eligible for payment based on the quality of the production at the time of the inspection.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

When a producer determines that a fair consideration to deliver to distant markets is applicable, they must report this to the local FASIS office. The local FASIS office will conduct an inspection. If the inspection confirms the fair consideration to deliver to distant markets, the producer will be eligible for payment based on the fair consideration to deliver to distant markets. If the inspection does not confirm the fair consideration to deliver to distant markets, the producer will be eligible for payment based on the quality of the production at the time of the inspection.

6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be eligible for payment. If a producer determines that production has zero market value, they must report this to the local FASIS office. The local FASIS office will conduct an inspection. If the inspection confirms the zero market value, the producer will be eligible for payment based on the zero market value. If the inspection does not confirm the zero market value, the producer will be eligible for payment based on the quality of the production at the time of the inspection.

7. REDUCTION IN VALUE (RIV):

The RIV is the difference between the fair consideration to deliver to distant markets and the quality of the production at the time of the inspection.

- Moisture content;
- Damage due to uninsured causes;
- Drying;
- Handling;
- Processing; or
- If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the
