General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Premium

In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than March 1.

Ùcæ^kM/V^çæÁÇìD

County: Burleson (051)

Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

- *9 To be eligible to insure your acreage under the Organic (Certified) practice you must provide evidence that you have successfully planted the requested organic crop for a minimum of three years. In one of those three years you must have successfully harvested and marketed the crop as organic and the yield you produced must be at least 50% of the current organic T-Yield. If you do not have such documentation, the acreage may only be insured under the Organic (Transitional) practice offered in this county.

In lieu of the provisions in section 22(a) of the Basic Provisions that says "[h]owever, unless specifically required by policy provisions, you must not obtain any other crop insurance authorized under the Act on your share of the insured crop," you may obtain a Small Grains Crop Insurance policy and an Annual Forage policy on the same acreage that is planted with the intent of grazing the crop first and then later harvesting the crop for grain.

Qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following provisions:

The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Any production qualifying under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, shall be adjusted under the following provisions:

Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following provisions:

- Production qualifying for quality adjustment under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, shall be adjusted under the following provisions:
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- Production qualifying for quality adjustment under section B or C (except for section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

1.

1. OPTION TO DELAY CLAIM SETTLEMENT

- On the date of final inspection for the unit, if any of your unsold***** production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DF's for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.

The following statement does not supersede the provisions contained in section 14 (e) in the Basic Provisions.

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period (EOIP).

I ĚÖŠŸÁǾÀ ÒÈWÜÒT ÒǾVÁǾǾĬT ÂVUÛÒǾÁÛUÖWÔNǾ

If you elect to delay measurement of farm stored production as provided in the Basic Provisions, all samples of farm stored production used to determine insurable quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment under the program.
