Insurance Availability

Insurance will not attach to any acreage on which canola, camelina, crambe, field peas, garbanzo beans (chickpeas), lentils, mustard or rapeseed were planted any of the preceding two crop years.

Cultivars of *Brassica carinata* are eligible for insurance under the Canola and Rapeseed Crop Provisions and are not insurable under the Mustard Crop Provisions; however, *Brassica carinata* is only insurable by written agreement.

Any acreage designated as unrated on the actuarial map will be insurable only by written agreement. Contact your crop insurance agent by the sales closing date to determine eligibility requirements.

Quality

GENERAL STATEMENTS:

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

QUALITY ADJUSTMENT STATEMENT

Only when it has been determined that the production qualifies for quality adjustment will the provisions in this Quality Adjustment Statement apply, otherwise this SP statement does not supersede the provisions contained in section 14(e) in the Basic Provisions.

EOIP

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

If we determine you are prevented from harvesting by the calendar date for the EOIP due to an insurable cause of damage that occurred during the insurance period and we allow an extension of time to harvest, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA { • • • } must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for quality adjustment. If you are prevented from harvesting your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A, which are listed in the AIP, may be used to determine the crop could have been harvested and you did not harvest it. If you are prevented from harvesting your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A, which are listed in the AIP, may be used to determine the crop could have been harvested and you did not harvest it.

QUALITY ADJUSTMENT STATEMENT

On the date of final adjustment for the unit, the following will apply (if such production is Zero Market Value, see Section D):

- a. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
- b. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
- c. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
- d. If production qualifying under Section C3 remains unsold, or is not destroyed more than 365 days after the calendar date for the end of insurance period, the following will apply:

ZERO MARKET VALUE PRODUCTION

For production listed in sections A, B, or C that we determine has zero market value due to insured quality deficiencies:

1. For production in Section A, the pre-established DFs.
2. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. For production in Section C3, the following will apply:
