General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Wheat (0011)

Use: 1000 @ 100

Date: 6/17/2025

Plan: Yield Protection (01)

County: Morrow (117)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For any production qualifying for quality adjustment, the net production to count is determined by subtracting the weight of any substances or conditions that are injurious to human or animal health from the total production.

For any production qualifying for quality adjustment, the net production to count is determined by subtracting the weight of any substances or conditions that are injurious to human or animal health from the total production. The net production to count is the total production minus the weight of any substances or conditions that are injurious to human or animal health.

For any production qualifying for quality adjustment, the net production to count is determined by subtracting the weight of any substances or conditions that are injurious to human or animal health from the total production. The net production to count is the total production minus the weight of any substances or conditions that are injurious to human or animal health.

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-As a person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-Grain that does not meet the definition of %Sold.
