General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Premium

In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than March 15.

Special Provisions 2026 and Succeeding Crop Years

Ùcæ^kMv^çæÁÇìD

County: Swisher (437)

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

For the purpose of this statement, the calendar date for the end of the insurance period is the date that the insured harvests the crop or the date that the insured files a claim for indemnity, whichever is later.

For the purpose of this statement, the calendar date for the end of the insurance period is the date that the insured harvests the crop or the date that the insured files a claim for indemnity, whichever is later. An automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

- For the purpose of this statement, the calendar date for the end of the insurance period is the date that the insured harvests the crop or the date that the insured files a claim for indemnity, whichever is later.
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- For the purpose of this statement, the calendar date for the end of the insurance period is the date that the insured harvests the crop or the date that the insured files a claim for indemnity, whichever is later.

1. OPTION TO DELAY CLAIM SETTLEMENT:

- Unless the insured elects in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- For the purpose of this statement, the calendar date for the end of the insurance period is the date that the insured harvests the crop or the date that the insured files a claim for indemnity, whichever is later.
- For the purpose of this statement, the calendar date for the end of the insurance period is the date that the insured harvests the crop or the date that the insured files a claim for indemnity, whichever is later, using the applicable DFs.
- For the purpose of this statement, the calendar date for the end of the insurance period is the date that the insured harvests the crop or the date that the insured files a claim for indemnity, whichever is later.
- If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- For the purpose of this statement, the calendar date for the end of the insurance period is the date that the insured harvests the crop or the date that the insured files a claim for indemnity, whichever is later.

For the purpose of this statement, the calendar date for the end of the insurance period is the date that the insured harvests the crop or the date that the insured files a claim for indemnity, whichever is later.
