General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

In accordance with the definition of "production reporting date" in the Basic Provisions, if you submit an application for insurance after the winter sales closing date or land is added after the production reporting date on which the spring type will be planted, the production reporting date will be the earlier of the acreage reporting date or 45 days after the spring sales closing date.

Type

- *4 Approved malting barley varieties will include all varieties recommended for malting by the American Malting Barley Association for the current crop year.
- *5 Malting Barley Endorsement is not available in this county.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use All, A, I, D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Chautauqua (013)

***6 Production Contract - A document in writing**

- a. Between you and a buyer that is a brewery or any other buyer that produces or sells malt or malt products to a brewery, or a business enterprise owned by such brewery or business.
- b. That specifies the amount of contracted production, the purchase price or a method to determine such price; and
- c. That establishes the obligations of each party to the agreement

In addition to section 6 of the Basic Provisions, you must provide us with copies of all your contracts on or before the acreage reporting date.

***7 You may elect to use the price contained in your production contract (contract price) as your projected price for each specialty type. This acreage must be under contract with a business enterprise equipped with facilities appropriate to handle and store specialty type barley production. The contract must be executed by you and the business enterprise, in effect for the crop year, and you must provide a copy to us no later than the acreage reporting date. To be considered a contract, the executed document must contain:**

- a. A requirement that you plant, grow and deliver specialty type barley to the business enterprise;
- b. **V@Ac [~ } of A [a ~ & q } A@Ac q/A^&8^] c a A /Ac^ { ^ } A@Ac/A [a ~ & q } A [{ Ac] ^&8a a A { a^! A -Ac^• A q/A^&8^] c a A [A^c! { a^A@A { a^! A of acres under contract:**
 1. For acreage only based contracts and, acreage and production contracts which specify a maximum number of acres, the lesser of:
 - i. The insured acres (planted acreage and acreage that is prevented from being planted); or
 - ii. The maximum number of acres specified in the contract.
 2. For production only based contracts, the lesser of:
 - i. The number of acres determined by dividing the production stated in the contract by the approved yield; or
 - ii. The insured acres (planted acreage and acreage that is prevented from being planted).
 3. Acreage in excess of (1) or (2) shall be considered acreage not under contract.
- c. The price to be paid for the contracted production or a method to determine such price:
 1. If the contract provides for a premium amount over a price to be determined after the acreage reporting date, the contract price will be the result of adding the premium amount to the published projected price on the acreage reporting date.
 2. The price used will be the price in the contract without regard to incentives or discounts.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Barley (0091)

U.S. Farm Income

Date: 6/17/2025

Plan: Yield Protection (01)

County: Chautauqua (013)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

3. The Actuarial Documents of these Actuarial Documents.

4. The Actuarial Documents of these Actuarial Documents is subject to the limits referred to in (c)(3).

d. Other such terms that establish the obligations of each party to the contract; and

e. The contract must clearly indicate the specific specialty type or verification must be provided that the contracted variety is one of the specialty types listed above.

Any acreage of the specialty type that is not under a contract per (b)(3) above, or for which a contract is not submitted to us by the acreage reporting date, will be valued at the applicable barley projected price. A weighted average price will be determined from all the contracted and non-contracted acreage of the specialty type, to produce one projected price that will be used in determining the guarantee (per acre), premium, prevented planting payment, replanting payment, and indemnity for the applicable specialty type acreage.

Note: Quality adjustment will be provided as specified in the crop provisions and special provisions. No additional quality adjustment will be made for malting barley.

Date

In lieu of section 7 of the Small Grains Crop Provisions, the end of insurance period for winter-type acreage will be August 31 immediately following planting.

*9 In lieu of the definition of late planting period in section 1 of the Basic Provisions, for type winter only, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

You may elect to exclude coverage for the specialty type(s) under revenue protection provided you purchase, from the same approved insurance provider, yield protection for the excluded type(s). The yield protection plan of insurance you purchase may have a different coverage level or percentage of projected price than you have for the revenue protection plan of insurance. You may exclude any or all of the specialty type(s) you produce; however, you must continue to insure all type(s) not excluded under revenue protection.

Quality

GENERAL STATEMENTS:

For the purpose of this Quality Adjustment Statement, the following definitions apply:

The Quality Adjustment Factor (QAF) is determined by the difference between the actual quality and the minimum quality required for the crop. The QAF is calculated as follows: $QAF = \frac{\text{Actual Quality} - \text{Minimum Quality}}{\text{Maximum Quality} - \text{Minimum Quality}}$. The QAF is then multiplied by the production to count to determine the net production to count.

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

The QAF is determined by the difference between the actual quality and the minimum quality required for the crop. The QAF is calculated as follows: $QAF = \frac{\text{Actual Quality} - \text{Minimum Quality}}{\text{Maximum Quality} - \text{Minimum Quality}}$. The QAF is then multiplied by the production to count to determine the net production to count.

Sections B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

The QAF is determined by the difference between the actual quality and the minimum quality required for the crop. The QAF is calculated as follows: $QAF = \frac{\text{Actual Quality} - \text{Minimum Quality}}{\text{Maximum Quality} - \text{Minimum Quality}}$. The QAF is then multiplied by the production to count to determine the net production to count.

The QAF is determined by the difference between the actual quality and the minimum quality required for the crop. The QAF is calculated as follows: $QAF = \frac{\text{Actual Quality} - \text{Minimum Quality}}{\text{Maximum Quality} - \text{Minimum Quality}}$. The QAF is then multiplied by the production to count to determine the net production to count.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following provisions:

- The DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- The DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.

1. OPTION TO DELAY CLAIM SETTLEMENT:

Special Provisions
2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Underlying APN: 011-011-011
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Chautauqua (013)

- a. Unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- c. Unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- d. Unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- e. Unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- g. Unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

SECTION 14(e) - QUALITY ADJUSTMENT STATEMENT

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

Unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

4. DELAY IN MEASUREMENT OF FARM STORED PRODUCTION

Unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
