#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

#### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

1. OPTION TO DELAY CLAIM SETTLEMENT:

- a. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- c. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the RIV as outlined below, unless you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- d. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the RIV as outlined below, unless you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- e. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the RIV as outlined below, unless you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- g. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the RIV as outlined below, unless you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

This statement does not supersede the provisions contained in section 14(e) in the Basic Provisions.

### 3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

### 4. DELAY IN MEASUREMENT OF FARM STORED PRODUCTION

Quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment. If a producer determines that quality deficiencies exist, they must be reported to the USDA within 60 days of the EOIP. If a producer fails to report quality deficiencies within this time frame, the production will be considered to be of standard quality. This provision applies to all production stored on the farm and not sold or otherwise disposed of within the 60-day period.

### 5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

When a producer determines that their production is of standard quality, they may elect to sell it to a distant market. If the producer chooses to do so, they must provide a fair consideration to the distant market. This provision applies to all production sold to a distant market, regardless of whether it is sold directly to the market or through a third party.

### 6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value\*\*\*, such production will not be eligible for payment. This provision applies to all production determined to have zero market value, regardless of whether it is sold or otherwise disposed of.

### 7. REDUCTION IN VALUE (RIV):

The RIV is calculated based on the following factors:

- Moisture content;
  - Damage due to uninsured causes;
  - Drying;
  - Handling;
  - Processing; or
  - Other factors that may affect the value of the production.
- If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market.
