#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

#### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 100% for feed
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Wake (183)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

### Quality

#### GENERAL STATEMENTS:

For the purpose of this statement, the following definitions apply:

**Quality Adjustment Factor (QAF):** The QAF is determined by the difference between the actual production and the production to count, divided by the production to count. The production to count is the gross production minus any allowable reductions. The QAF is used to adjust the gross production to determine the net production to count.

The production to count remaining after allowable reductions to gross production (in accordance with the applicable Crop Provisions), is multiplied by the QAF (not less than zero) to determine net production to count.

**Net Production to Count:** The net production to count is the production to count multiplied by the QAF. The net production to count is the amount of production that is eligible for an indemnity payment.

**Quality Adjustment Statement:** The Quality Adjustment Statement is a statement that must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

**Quality Adjustment Statement:** The Quality Adjustment Statement is a statement that must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

**Quality Adjustment Statement:** The Quality Adjustment Statement is a statement that must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

- The DF will be determined by the difference between the actual production and the production to count, divided by the production to count.
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- The DF will be determined by the difference between the actual production and the production to count, divided by the production to count.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 100%
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Wake (183)

production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.

iii. The RIV and local market price\* are determined on the date such quality adjusted production is sold to a disinterested third party.

iv. The RIV and local market price\* are determined on the date such quality adjusted production is sold to a disinterested third party.

Aflatoxin Range	DF
0-300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

À

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed
  - a. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disinterested third party; or
    - i. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disinterested third party; or
    - ii. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disinterested third party; or
  - b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:
    - i. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disinterested third party; or
    - ii. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disinterested third party; or
  - c. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disinterested third party; or
  - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, the claim will be reduced by the percentage of the claim that is disinterested third party; or

### SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disinterested third party; or

1. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disinterested third party; or

## Special Provisions 2026 and Succeeding Crop Years

County: Wake (183)

- [illegible]

	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-A Grain that does not meet the definition of %sold.
