### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

### Premium

In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than February 15.

### Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

## Special Provisions 2026 and Succeeding Crop Years

|                 |  |                      |
|-----------------|--|----------------------|
| Year: 2026      | Commodity: Wheat (0011)  | County: Zavala (507) |
| Date: 6/17/2025 | Plan: Yield Protection (01)<br>Revenue Protection (02)<br>Revenue Prot with Harvest Price Exclusion (03) |                      |

\*9 To be eligible to insure your acreage under the Organic (Certified) practice you must provide evidence that you have successfully planted the requested organic crop for a minimum of three years. In one of those three years you must have successfully harvested and marketed the crop as organic and the yield you produced must be at least 50% of the current organic T-Yield. If you do not have such documentation, the acreage may only be insured under the Organic (Transitional) practice offered in this county.

In lieu of the provisions in section 22(a) of the Basic Provisions that says "[h]owever, unless specifically required by policy provisions, you must not obtain any other crop insurance authorized under the Act on your share of the insured crop," you may obtain a Small Grains Crop Insurance policy and an Annual Forage policy on the same acreage that is planted with the intent of grazing the crop first and then later harvesting the crop for grain.

### Quality

#### GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

**Adjustment factors** are considered in determining production to count.

For the purpose of this section, the following definitions apply:

Qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under

The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period

Any production qualifying under section B or C (except for section C3) that is sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the

Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in

| Below 44           | See Section B                                   |

Hard Red Spring and White Club wheat will be discounted for excessive Defects as follows:

SRW, HRW, and HWW classes of wheat will be discounted for excessive Defects as follows:

|              |   |
|--------------|---|
| Defects %    | DF  |
| 15 and below | None  |
| 15.01-35     | See Quality Adjustment Tab for Discount Factors |
| Above 35     | See section B                                   |

SRW, HRS, and DUM classes of wheat will be discounted for excessive Defects as follows:

## Special Provisions 2026 and Succeeding Crop Years

|                 |  |                      |
|-----------------|--|----------------------|
| Year: 2026      | Commodity: Wheat (0011)  | Use: 000/000/000 D   |
| Date: 6/17/2025 | Plan: Yield Protection (01)<br>Revenue Protection (02)<br>Revenue Prot with Harvest Price Exclusion (03) | County: Zavala (507) |

|              |   |
|--------------|---|
| Defects %    | DF  |
| 10 and below | None  |
| 10.01-35     | See Quality Adjustment Tab for Discount Factors |
| Above 35     | See section B                                   |

For all classes of wheat, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below, if the production is also eligible for a discount factor in the Defects Discount Table or the Sprout Damage Discount Table above.

### SPROUT DAMAGE DISCOUNT FOR ALL CLASSES

For all classes of wheat, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below, if the production is also eligible for a discount factor in the Defects Discount Table or the Sprout Damage Discount Table above.

|                       |   |
|-----------------------|---|
| Sprout Damage Percent | DF  |
| 10 and below          | None  |
| 10.01 - 15.0          | See Quality Adjustment Tab for Discount Factors |
| Above 15.0            | See Section B                                   |

### FALLING NUMBER DISCOUNTS:

For all classes of wheat, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below, if the production is also eligible for a discount factor in the Defects Discount Table or the Sprout Damage Discount Table above.

In addition to the quality deficiencies allowed in section 11 (d) of the Small Grains Crop Provisions, the following quality factors for Falling Number will apply:

All Other Classes of wheat will be discounted for falling number, regardless of U.S. grade designation as follows:

|                      |   |
|----------------------|---|
| Falling Number Range | DF  |
| 299-200              | See Quality Adjustment Tab for Discount Factors |
| Below 200            | See Section B                                   |

## Special Provisions 2026 and Succeeding Crop Years

|                 |  |                      |
|-----------------|--|----------------------|
| Year: 2026      | Commodity: Wheat (0011)  | County: Zavala (507) |
| Date: 6/17/2025 | Plan: Yield Protection (01)<br>Revenue Protection (02)<br>Revenue Prot with Harvest Price Exclusion (03) |                      |

DFs for Vomitoxin:

| Vomitoxin Range  | DF  |
|------------------|---|
| 0.1 - 10.0 ppm   | See Quality Adjustment Tab for Discount Factors |
| 10.1 ppm & above | See C3 below                                    |

2. If the level of a substance or condition is less than the maximum allowable, adjust the production in the following manner.
  - a. If the level of a substance or condition is less than the maximum allowable, the DF will be:
    - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of all insurable quality deficiencies, and that value divided by the local market price.
    - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above, plus the applicable DF for the substance or condition.
    - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above, plus the applicable DF for the substance or condition, plus the applicable DF for the substance or condition.
    - iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
    - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, plus the applicable DF for the substance or condition.
  - b. If the level of a substance or condition is less than the maximum allowable, the DF will be:
    - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
    - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
    - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B3 above.

## Special Provisions 2026 and Succeeding Crop Years

|                 |  |                      |
|-----------------|--|----------------------|
| Year: 2026      | Commodity: Wheat (0011)  | Use Value: 0.00      |
| Date: 6/17/2025 | Plan: Yield Protection (01)<br>Revenue Protection (02)<br>Revenue Prot with Harvest Price Exclusion (03) | County: Zavala (507) |

DFs for Aflatoxin:

| Aflatoxin Range   | DF  |
|-------------------|---|
| 0.0 - 300.1 ppb   | See Quality Adjustment Tab for Discount Factors |
| 300.1 ppb & above | See C3 below                                    |

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
  - a. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be denied.
    - i. If the claimant is a disinterested third party; or
    - ii. If the claimant is a producer who has sold the production to a third party, the claim will be denied.
  - b. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be denied.
    - i. If the claimant is a disinterested third party; or
    - ii. If the claimant is a producer who has sold the production to a third party, the claim will be denied.
  - c. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be denied.
    - i. If the claimant is a disinterested third party; or
    - ii. If the claimant is a producer who has sold the production to a third party, the claim will be denied.
  - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

### SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be denied.

1. If the claimant is a disinterested third party; or

## Special Provisions 2026 and Succeeding Crop Years

Ùcæ^kM^çæÁÇìD

County: Zavala (507)

- [illegible]

|       |  |
|-------|--|
| *     | %Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.   |
| **    | %Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.  |
| ***   | %Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters. |
| ****  | %Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.   |
| ***** | %Unsold-A Grain that does not meet the definition of %sold.  |
