General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

1. OPTION TO DELAY CLAIM SETTLEMENT:

- On the date of final inspection for the unit, if any of your unsold**** production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect to use the RIV for the entire claim.
- For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- If the production is later sold, we will not recalculate or adjust your claim for indemnity.
- For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- If the production is later sold, we will not recalculate or adjust your claim for indemnity.

Unless the AIP grants an extension to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C

Unless the AIP grants an extension to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C will be taken within 60 days after the calendar date for the EOIP. If you elect to use the RIV for the entire claim, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA will be taken within 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A will be used to determine the claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest the crop.

1. QUALITY ADJUSTMENT STATEMENT (QAS)

QAS is required for production of Oats (0016) under the Revenue Protection (02) plan. Quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for revenue protection. The QAS must be obtained from a qualified entity, such as a grain elevator, and must be submitted to the county office. The QAS must be submitted to the county office no later than 30 days after the 180th day.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

Production of Oats (0016) under the Revenue Protection (02) plan is eligible for fair consideration to deliver to distant markets. This provision applies to production sold to other than a disinterested third party, fed, utilized in any other manner, or when a pre-established DF is applicable.

6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be eligible for revenue protection. This provision applies to production sold to other than a disinterested third party, fed, utilized in any other manner.

7. REDUCTION IN VALUE (RIV):

ÜQX is required for production of Oats (0016) under the Revenue Protection (02) plan. ÜQX is required for production sold to other than a disinterested third party, fed, utilized in any other manner.
