Table with 6 columns: Sales Closing Date, Cancellation Date, Earliest Planting Date, Final Planting Date, End of Late Planting Period Date, Acreage Reporting Date, Premium Billing Date, End of Insurance Date, Termination Date, Contract Change Date, Production Reporting Date, Insured's Production Reporting Date.

Table with 3 columns: TP, Type, Practice. Rows include T/P 1, T/P 2, and T/P 3 with specific type and practice codes.

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

In lieu of section 34(c)(1) of the Basic Provisions:

- 1. Optional units may be established if each optional unit is located in a separate:
i. FSA farm serial number in accordance with FCIC issued procedures; or
ii. Measure, such as Spanish grants, provided the boundaries are readily discernible, if such parcels can be considered as the equivalent of sections for unit farm serial number.

Refer to the prices tab for the percentage of sugar for appraisals.

In lieu section 2(b) of the Sugarcane Crop Provisions, instead of reporting your sugarcane production for the current crop year by the insured's production reporting date as required by subsection 3(f)(1) of the Basic Provisions, there is a lag period of one year and you are required to report production from two crop years previously by the production reporting date, e.g., 2022 crop year production must be reported by the production reporting date for the 2024 crop year.

County: Iberia (045)

Contract price:

Contract price authority (i.e., rules governing the use of contract prices and the method to determine a contract price) will be found in one of the following three places, listed in priority order:

- When the contract price code is **Yes** on the Prices tab for the crop, type, and practice:

- For the purposes of the Sugarcane Crop Insurance Crop Replacement Endorsement, the base payment amount is \$672.00

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Insurance will not attach to any acreage of sugarcane:

Following the harvest of the third year of stubble cane for varieties HoCP 00-950, L 99-226, L 03-371, L 01-283, HoCP 04-838, Ho 05-961, HoCP 09-804, L 11-183, L
